

The Collection 2023

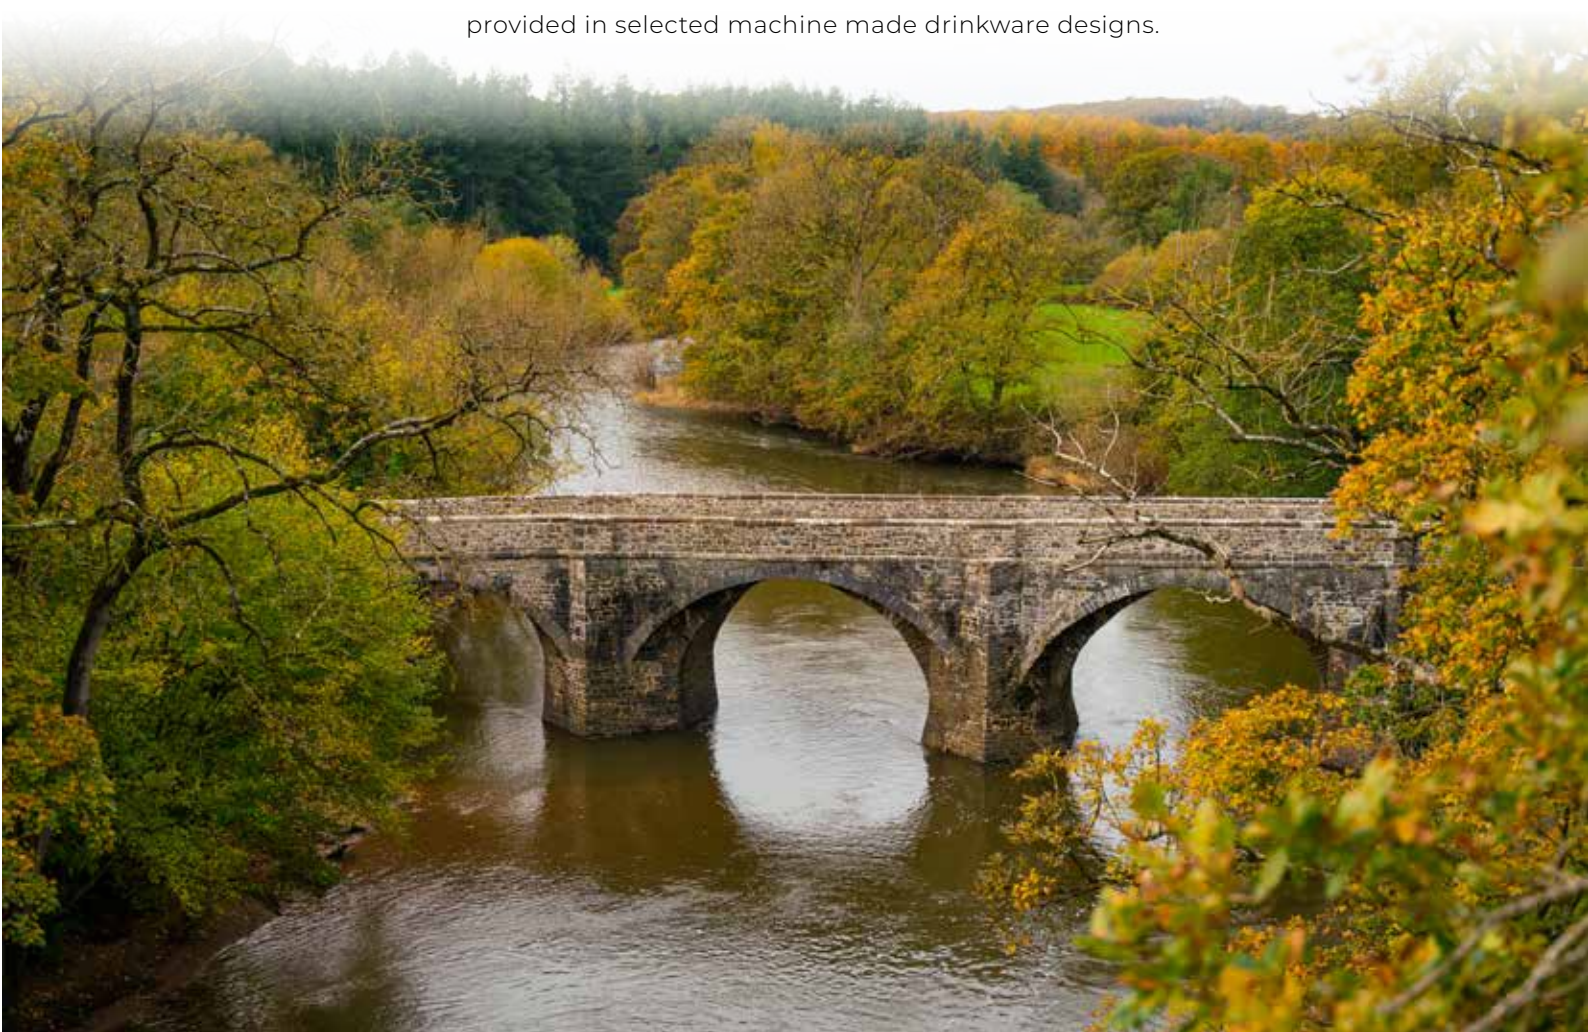

Our Story

Since 1967 Dartington has created inspired choices in crystal and glass for the home and to give as gifts. Many of our original glass makers were brought to Devon from Sweden, so it's no wonder that Dartington has an elegant, clean design style. We hope our products are admired but it's worth remembering that every piece is designed to be used and enjoyed.

Over 50 years later, Dartington is the only crystal factory remaining in the UK, and our crystal collection continues to be hand made at our Torrington factory, set in the rolling hills of North Devon. Dartington also offers you hand made glass collections – designed in England and crafted to our high quality standards by chosen European suppliers. Great value and supreme durability are provided in selected machine made drinkware designs.

Our Designers

Good looks, a balanced feel and sleek lines are what our designers and glass makers strive for. When something is good to hold and a pleasure to use, it means someone has put a lot of thought into how it was created.

These are the people that have done the thinking!

Hilary Green

Probably the most accomplished practicing glass designer in the UK, Hilary is responsible for much of the contemporary collection and leads the design process at Torrington.

A Graduate of the Royal College of Art, she is passionate about the craft of glass making. Hilary enjoys working with our glass makers in the sampling and development stage both in the UK and abroad. Her work typifies the contemporary English style that Dartington is known for.

Nick Davey

As a local lad Nick Davey originally joined as a glass maker at the Torrington factory. His creative talent was soon spotted and he quickly developed his skills as a glass engraver. Now a Master Craftsman Nick is renowned for his meticulous work and artistic flair. His commissions include work presented to The Pope, UK Royalty and many famous stars. The Gallery Collection of engraved crystal provides an enduring example of Nick's techniques.

Frank Thrower

From our beginning in 1967 to his death in 1985, Frank Thrower established the effortless design style and supreme functionality associated with Dartington. Although not a trained designer, Frank created iconic designs many of which still feature in the current collection. Famous for his charismatic charm and love of life, Frank created a unique legacy for Dartington and is recognised as a major influence on 20th Century commercial design.

Handmade Crystal

Our fine crystal collections are hand crafted in Devon by an expert team whose knowledge and skill bring our iconic Dartington pieces to life. Each piece is designed to the highest standard and has a luxurious weight and feel which can be treasured for years to come. The elegant style and classic features are admired and appreciated every time they are used.

Wine Master Collection

This handmade crystal collection has been carefully designed to make the perfect pairing for your chosen wine. Made with the finest quality materials these glasses are sure to impress and make your wine tasting experience even more enjoyable.

V&A

Sharon by *Frank Thrower*

Designed by Frank Thrower in 1971, Sharon is still turning heads today - thanks to a mouth-blown teardrop bubble captured in every stem. The iconic status of this design was recognised when it was chosen as one of the "100 Best Ever Products" exhibition at London's Victoria and Albert Museum.
