

D  
DARTINGTON  
CRYSTAL

The Collection 2024

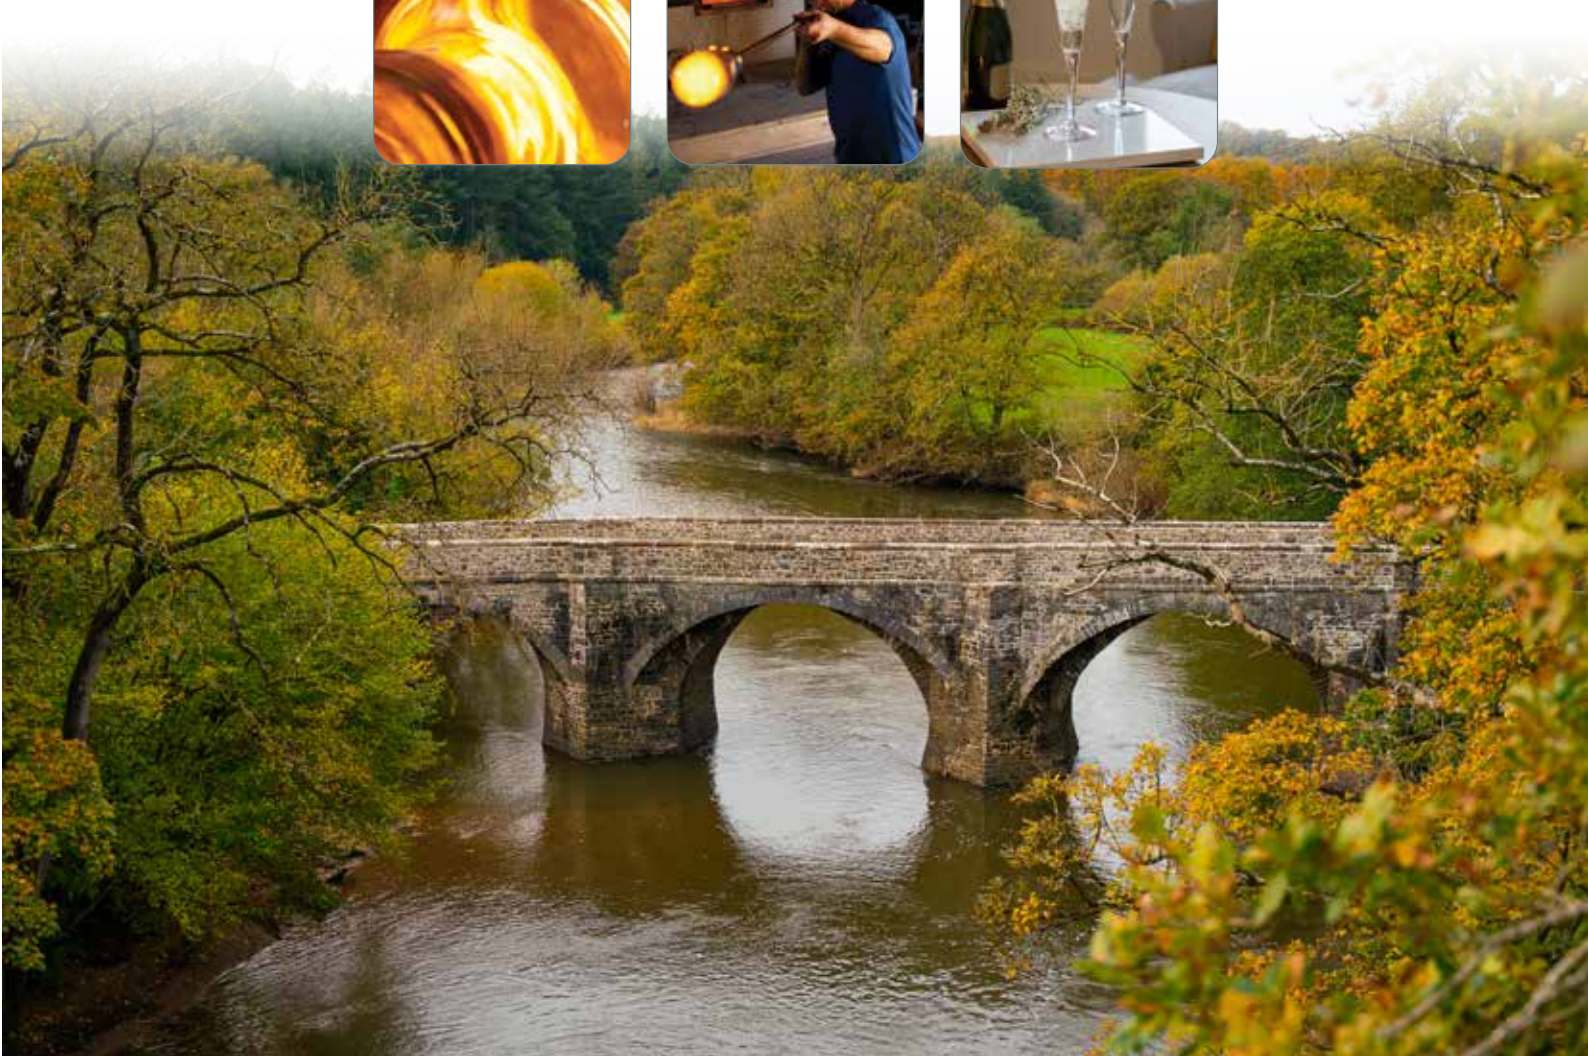

# Our Story

For over 50 years, Dartington has been creating beautiful and inspiring crystal and glassware. Our story begins in 1967 when skilled glassmakers from Sweden brought their expertise to our factory in Devon, England. It's no surprise then that Dartington crystal and glass has a signature elegant, minimalist Scandinavian aesthetic.

While valued for its beauty, our crystal and glass is meant to be used and enjoyed. Each piece is thoughtfully designed and crafted to stand the test of time. Dartington remains the only large scale crystal factory left in the UK. Our renowned crystal collection continues to be handmade at our Torrington factory, nestled in the rolling hills of North Devon.

In addition to our iconic crystal, Dartington offers handmade glass collections designed in England and produced to our high standards by selected European artisans. We also provide great value, durable machine-made drinkware.

Throughout our over 50-year history, Dartington has stayed true to our founding principles - creating inspired crystal and glass that brings joy into homes and makes memorable gifts. Our story continues today as we carry forward our rich legacy of English craftsmanship and Scandinavian design.

# Our Designers

At Dartington, aesthetic beauty and functionality go hand-in-hand. Our designers and artisans pour thoughtful consideration into crafting pieces that feel balanced, look sleek, and bring joy to use. We believe that an object's beauty lies not only in its outward appearance, but also in how it feels in the hand and its ease of use.

## Hilary Green

Hilary is one of the most talented glass designers working in the UK today. As lead designer at our Torrington site, she is the creative force behind much of Dartington's contemporary collection.

A graduate of the prestigious Royal College of Art, Hilary is deeply passionate about the art of glassmaking. She thrives on collaborating closely with our skilled artisans during the sampling and development process, both locally and with our partners abroad. Hilary's creations beautifully exemplify the contemporary English style that Dartington is renowned for. Her minimalist aesthetic, balanced with subtle decorative touches, results in pieces that are refined yet warm and inviting.

## Nick Davey

Nick Davey's journey with Dartington began right here in Torrington as a glass maker at our factory. His exceptional creative talent was quickly recognised, and he honed his skills to become a master engraver. As a Master Craftsman, Nick is renowned for both his meticulous technique and artistic sensibility. His prestigious commissions include gifts presented to the Pope, British Royalty, and celebrity stars. The Gallery Collection of engraved crystal showcases Nick's mastery of this delicate art. Each piece is a testament to his technical precision paired with artistic flair. From delicate patterns to ornate motifs, his engravings elevate our crystal to new heights.

## Frank Thrower

Frank Thrower was the creative force that shaped Dartington's signature style and unwavering commitment to functionality from our founding in 1967 until his passing in 1985. Though not formally trained as a designer, Frank had an intuitive gift for creating iconic forms with ease and grace. Many of his most beloved designs—celebrated for their fluid silhouettes and thoughtful details—remain pillars of our collection today. Frank was as renowned for his lively charisma and zest for life as his design talents. He left an indelible mark on Dartington and an incredible legacy as a pillar of 20th century commercial design. Frank's gift for effortless elegance and celebration of simple pleasures set the tone for our brand's values which still guide us today.

# *Handmade Crystal*

Our fine crystal collections are hand crafted in by an expert team whose knowledge and skill bring our iconic Dartington pieces to life. Each piece is designed to the highest standard and has a luxurious weight and feel which can be treasured for years to come. The elegant style and classic features are admired and appreciated every time they are used.

# Wine Master Collection

This handmade crystal collection has been carefully designed to make the perfect pairing for your chosen wine. Made with the finest quality materials these glasses are sure to impress and make your wine tasting experience even more enjoyable.

V&A

## Sharon *by Frank Thrower*

Designed by Frank Thrower in 1971, Sharon is still turning heads today - thanks to a mouth-blown teardrop bubble captured in every stem. The iconic status of this design was recognised when it was chosen as one of the "100 Best Ever Products" exhibition at London's Victoria and Albert Museum.

# THE Heirloom COLLECTION

We are thrilled to honor over 50 years of glassmaking heritage by bringing back some of Dartington's most beloved classics. To kick off the new year, we're proud to reintroduce the artful Daisy Collection.

This storied range is crafted using the centrifuge technique, where glassmakers expertly spin molten crystal to blossom each piece into its signature daisy form. It's a mesmerising process that allows the material and artisan to work in harmony.

Celebrating over half a century of our heritage, the Daisy Collection welcomes back a Dartington classic technique. Each piece bears the mark of masterful craftsmanship passed down through our generations of glassmakers. We can't wait to see these beloved bowls grace tables and display shelves once more.

BD186/4  
**Large Bowl**  
250mm (dia) x 118mm(h)

# Unity

The Unity Collection brings together the incredible artistry of two premier UK glassmaking teams - Dartington Crystal and Caithness Glass. This striking collaborative range unites the talents of England and Scotland.

Each piece in the collection features a bold Caithness glass paperweight set within an elegantly curved Dartington Crystal bowl or vase. The fluid silhouette of the Dartington vessel and the intricate detail of the Caithness paperweight complement each other beautifully.
