

Maslin

The Maslin is a LED surface-mount blade exit light with built-in side LEDs for emergency lighting coverage.

This product comes in a theatre variant as well (denoted by the order code BLK), which is perfect for use in darker environments.

WARNING

Installation must be performed by a licensed electrician. Turn off and isolate the electrical supply before installing this device.

New Installation

1. Slide out the Maslin base from the Maslin.
2. Mount the maslin base to the wall or ceiling using the provided mounting holes.
3. Wire the power cabling to the terminal block.
4. Slide the Maslin back onto the Maslin base and fasten using the screw provided.

Testing

Once Elumen products are connected to the mains power supply, they must be allowed to charge for at least 24 hours. AS 2293.3 requires that new emergency fittings operate in emergency mode for a minimum of 2 hours for their first discharge test. Future subsequent tests require the fitting last at least 90 minutes in emergency mode. For more specific information, please refer to the current edition of the AS 2293.3 Standard.

Warranty

All Elumen standard emergency and non-emergency products are covered under manufactures warranty for a period of 3 and 5 years, respectively, from date of invoice. For more comprehensive Product Warranty information and Terms and Conditions of Sale on the entire Elumen range, please refer to our website: elumen.com.au/resources
