

Welcome to the Jump.ca Family!

After many memorable years of providing SaskTel wireless and Fusion services, it is with mixed emotions that we share that Audio Warehouse has chosen to step away from selling SaskTel services to focus on our home entertainment, home automation and consumer electronics offering. We know there is enough to worry about these days, so rest assured that all your cellular needs will now be in the helpful hands of our good friends at Jump.ca, SaskTel's largest full-service Authorized Dealer. Moving forward, you'll be able to shop confidently knowing you will get the same great experience you have come to expect with a local business while enjoying the convenience of eight stores throughout Regina!

What does this mean for Audio Warehouse customers?

It is really quite easy. Simply visit one of the many friendly neighbourhood Jump.ca stores in your area for any SaskTel need you have, from the newest phones, SaskTel plans and phone repair services, to maxTV, Hlgh Speed or Fusion internet and SecurTek monitored security solutions. Jump.ca is committed to ensuring you feel safe by offering contactless options, including online shopping with same-day home delivery or curbside store pickup. For assistance online, easily reach out to the Jump.ca Customer Care Team by calling (306) 310-5867, emailing customercare@jump.ca, or using the online chat feature at www.jump.ca!

Audio Warehouse will continue to be here for you doing what we have done for more than 50 years—providing you with the very best home entertainment products and services.

Thank you!

Joining forces with Jump.ca allows us to move confidently into this next chapter knowing you will be taken care of with the same level of local comfort you've experienced with us. These folks are as passionate as the team at Audio Warehouse about helping our community stay connected, making time for the moments that matter. We cannot thank you enough for continuing to support local businesses and putting your trust in us during this transition.

Sincerely,

Brian Melby
President
Audio Warehouse
