

NEW GENERATION OIL STORAGE TANKS

- Each tank has 4 entry ports, a level gauge, and a leak detection sensor between the inner and outer skin.
- These double-wall tanks are designed to offer the highest level of environmental protection.
- The inner tank is made out of blow-moulded, high-density polyethylene that is seamless, absolutely leak proof and corrosion resistant.
- The outer tank is made of leak-proof corrosion resistant steel which is capable of containing at least 110% of the capacity of the inner tank for maximum protection. Fabricated from galvanized steel, roll seamed (no welds) with an oil and fire resistant seal, making it one of the safest and most reliable tanks on the market.
- 5 Year manufacturers warranty.

Tank Model	TST400	TST620	TST750	TST1000D	TST1500
Capacity	400L	620L	750L	1000L	1500L
Length (mm)	750	750	1000	1100	1650
Width (mm)	690	690	760	705	755
Height (mm)	1175	1615	1370	1610	1870
Weight	46Kg	60Kg	67Kg	76Kg	133Kg
