

NEW GENERATION WASTE OIL STORAGE TANKS

WHETHER IT'S OUR DOUBLE-SKINNED TSW RANGE OF STEEL TANKS WHICH ARE MANUFACTURED AS TWO TANKS IN ONE, OR OUR 1000L PLASTIC WASTE OIL TANKS, ALL OF OUR TANKS COMPLY WITH THE STRICT NEW ZEALAND LEGISLATION WHICH APPLIES TO ANY SITES WITH WASTE OIL STORAGE.

Additional to complying with increasingly enforced regulations, the TSW tanks range also offer unparalleled functionality for installation, use, and maintenance with a forklift-friendly base, large weatherproof & bunded connections box, included level gauge, leak detection sensor between skins, large manway, and ample tank entry ports. Lifting eyelets can be added on to the top as an optional extra.

Enhance both your environmental compliance and the practicality of use with our quality range of waste oil tanks.
