# MÉGANE R.S. 280 CUP / 300 TROPHY

At a glance...

- TIG-welded from T304 stainless steel
- 3in/76.2mm mandrel-bent pipework
- Stock catalyst and GPF can be retained (MOT compliant)
- Venom non-resonated cat back recorded +12.9dB at 4,000rpm

## MAKE DIEPPE'S DIAMOND 'RING-READY

The Mégane R.S. has always been a fan favourite at the Nürburgring, thanks to exceptional agility and cornering performance combined with an extremely tuneable engine.

The latest Mégane R.S. 280 Cup / 300 Trophy is no exception, and as a result, the Mégane R.S. has really hit the spot with enthusiast drivers around the world.

However it is shipped from the factory with a muted exhaust sound which dilutes the overall driving experience.

“ **Cobra Sport's all-new performance exhaust range enhances the character of Renault's greatest hot hatch, adding a new level of engagement, in keeping with the hardcore personality.** ”

# STIMULATE YOUR SENSES

## +12.9dB

### Venom Non-Resonated Cat Back

Engine at idle: 87.5dB (+18.8dB)

Static 4,000rpm test: 93.9dB (+12.9dB)

The TIG-welded performance exhaust adds a new level of engagement by offering unrivalled sound and performance.

### Audible Emotion

Cobra Sport's development team have developed an extensive range of performance exhaust systems, that not only add a new level of sound, but also add performance – catering to the needs of any Renaultsport enthusiast.

Cobra Sport performance exhausts transform your drive, delivering an exhilarating experience every time you get behind the wheel.

PERFORMANCE EXHAUSTS...  
*ZERO COMPROMISE*

All Cobra Sport exhausts are manufactured in the UK from certified grade 304 stainless steel and TIG welded for a superior quality finish.

# PRODUCT OPTIONS

## LIFETIME WARRANTY

All Cobra Sport exhaust systems come with a lifetime warranty for the original purchaser, giving you ultimate peace of mind.

## UK MANUFACTURED

All Cobra Sport stainless steel exhaust systems are manufactured in the UK.

## TIG WELDED

All Cobra Sport exhausts feature tungsten inert gas (TIG) welding rather than metal inert gas (MIG) which is employed by many competitors in the performance aftermarket.

## Cat Back with Rear Silencer

Our most subtle upgrade offering extra bass, allowing the 1.8L turbocharged engine to sing, turning the Mégane R.S. into a very capable daily driver.

Idle - 79dB (+10.3dB) | 4000RPM - 83.5dB (+2.5dB)

---

## Venom Cat Back Resonated

The perfect middle ground of aggression and driveability, with enhanced factory pops and crackles, offering significant increases throughout the rev range.

Idle - 86.7dB (+18.2dB) | 4000RPM - 89.1dB (+8.1dB)

---

## Venom Cat Back Non-Resonated

The most extreme upgrade for those wanting to stand out from the crowd. The pops and crackles become more pronounced with a heightened volume and feeling of emotion.

Idle - 87.5dB (+18.8dB) | 4000RPM - 93.9dB (+12.9dB)

---

# LISTEN TO THE SOUND ONLINE

Cobra Sport performance exhausts are all about the sound.

Our website has promotional and sound example video files to demonstrate how a Cobra Sport exhaust can truly transform your drive.
