

# MURPHY DOOR

## Mag-Lock with Biometric Scanner/Keypad

**Admin fingerprint and user fingerprint must be different.**

**NOTE:** We strongly recommend against relying on a single fingerprint to unlock your door. We recommend creating a backup pin or backup RFID tag and storing it in a safe place.

### Enter Admin Mode

- \* (Red light will blink)
- Master Code (factory code is 123456)
- # (Light will flash green and go back to flashing red)

### Change Master Code

- \* (Red light will blink) 123456 #
- (Light will flash green and go back to flashing red)
- 0 (Light will turn solid orange) enter new code (6 digits) # Repeat Code #
- \* to exit

### Add Fingerprint

- Enter admin mode
- 1 (Light will turn solid orange)
- Fingerprint x3 (Long beep and green light will flash and go back to solid orange)
- # (Light will flash red)
- \* to exit

### Add Pin

- Enter admin mode
- 1 (Light will turn solid orange)
- enter pin (4-6 digits... cannot be 8888)
- # (Long beep and green light will flash and go back to solid orange)
- \* to exit

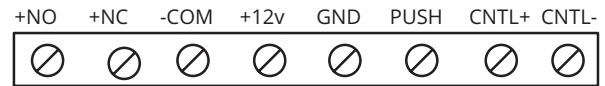

### Add RFID Tag

- Enter admin mode
- 1 (Light will turn solid orange)
- Read RFID Tag # (Light will flash red)
- \* to exit

\*Additional setup instructions are in the included User Manual.

Red wires connect to your power source, white and black.

Green wire, if present, should be capped.

**NOTE:** Additional 18 gauge wire will be needed for installation.
