MURPHY DOOR

Bookcase / Cabinet Door

Our best-selling hidden door doubles as built-in shelves for books and decor. It delivers much needed storage space and easily carries up to 300 lbs. Our patented hinge system provides effortless operation, even fully loaded.

INCLUDES

- 3 adjustable standard shelves
- 1 fixed standard shelf
- Delivered pre-hung in a jamb, FULLY assembled.

OPTIONS

Cabinet doors

— lower only, upper only, upper & lower

Extra standard adjustable shelves

CABINET DOOR STYLES

Flat

Glass

Shaker

Slab

NOTES

The Bookcase/Cabinet Door is 8-1/4" deep. 5-1/4" out-swing, 6-1/4" in-swing, and 10 or 12" in or out-swing available.

Average door weight is 125 to 150 lbs depending on width, height, options, and locking system.

Due to door weight we do not recommend ordering 12" deep doors over 40" wide.

Dresser Door

The perfect solution for anyone who wishes they had an extra dresser. Our Dresser Door instantly adds 4 drawers and adjustable storage to your doorway!

INCLUDES

- 4 functional 8-5/8" deep drawers
- 2 adjustable standard shelves
- 1 fixed standard shelf

OPTIONS

- Cabinet doors — upper only
- Extra standard adjustable shelves
- Shoe rack shelves
- Clothes rods

Shoe rack shelves and clothes rods can increase functionality.

NOTES

- The Dresser Door is 12" deep.
- Average door weight is 150 to 175 lbs depending on width, height, options, and locking system.
- Due to door weight we do not recommend ordering Dresser Doors over 40" wide.

MURPHY DOOR

Mirror Closet Door

Our Mirror Closet Door adds a full-length mirror to your room and expands usable storage into your doorway. Interior shelves add up to 20 cubic ft of storage perfect for folded garments.

INCLUDES

- Full-length mirror
- 3 adjustable standard shelves
- 1 fixed standard shelf

11 Steps to the Perfect Hidden Door

- 1** Choose Your Single Flush Mount Door - pg 6-21
- 2** Choose Your Wood and Finish - pg 42-43
- 3** Choose Width and Height Door Width - 24" to 48" Door Height - 60" to 94"
- 4** Choose Swing Direction and Hinge Location

In-Swing Doors pivot outside the jamb. You will have more pass-through space, but will require wall clearance when opened.

Door Depth	Pass-through Space	Wall Clearance Needed	Protrusion*	Usable Shelf Depth	Mechanical Key Lock & Book Latch	Electro Magnetic Lock	Automatic Lock
6-1/2"	Door width minus 6"	-	2"	4"	-	-	X****
8-1/4"	Door width minus 6"	1-1/2"	3-3/4"	6-1/2"	X**	X***	X****
10"	Door width minus 6"	3-1/2"	5-1/2"	8-5/32"	X**	X	X****
12"	Door width minus 6"	5-1/2"	7-1/2"	10-1/5"	X**	X	X****

* The door protrusion is based on 4-9/16" door jamb, for 6-9/16" door jamb subtract 2"
 ** Can not be used on Mirror Door, Mirror Gun Cabinet Door, or Pantry Door
 *** Can not be used with a 6-9/16" jamb
 **** Door must be over 28" wide. Mirror Door, Mirror Gun Cabinet Door, and Pantry Door can not have upper cabinets. Custom jamb depths can not be more than 1" deeper than the door depth.

Out-Swing Doors pivot within the jamb. You will have less pass-through space, but no additional wall clearance is needed.

Door Depth	Pass-through Space	Wall Clearance Needed	Protrusion*	Usable Shelf Depth	Mechanical Key Lock & Book Latch	Electro Magnetic Lock	Automatic Lock
5-1/4"	Door width minus 8-1/4"	-	3/4"	3"	-	X**	X****
8-1/4"	Door width minus 11-1/4"	-	3-3/4"	6-1/2"	X**	X**	X****
10"	Door width minus 13"	-	5-1/2"	8-5/32"	X**	-	X****
12"	Door width minus 15"	-	7-1/2"	10-1/4"	X**	-	X****

* The door protrusion is based on 4-9/16" door jamb, for 6-9/16" door jamb subtract 2"
 ** Can not be used on Mirror Door, Mirror Gun Cabinet Door, or Pantry Door
 **** Door must be over 28" wide.
 Custom jamb depths can not be more than 1" deeper than the door depth.

WHY MURPHY DOOR CAN'T BE IMITATED?

Murphy Door's Concealment Potential

Whether you are hiding a safe room or an entire floor, Murphy Door has a hidden door option for you.

Customers across America are using our doors to create cozy retreats all their own. We've heard from happy customers using them to hide laundry rooms, home gyms, movie rooms; and more. We have customers using them to hide valuables or store guns safely from sight. We've even had customers use them to conceal their furnace and water heater while still allowing them easy access.

Regardless of your plans for your Murphy Door, one thing is sure; you are going to love your hidden door.

MURPHY DOOR

Surface Mount Bi-Fold Door

It looks like a free standing bookcase, but give it a simple pull to reveal a hidden doorway. This patented bookcase door uses a steel roller system. It opens with ease, holding up to 300 lbs, and creates up to 42 cu ft of usable storage.

INCLUDES

BILT INTELLIGENT INSTRUCTIONS

Available on most iOS and Android devices.

Woods and Finishes

The natural characteristics of wood may cause variations in finishes. Lighter or darker finishes, and more or less apparent wood grain, are part of the unique beauty of handcrafted wood doors.

CHERRY

Cherry has a distinct grain pattern and warm color shadings, ranging from nearly white to a dark reddish brown. Dark pockets, pin knots and random streaks are common.

KNOTTY ALDER

Knotty Alder has a fine, straight grain and even texture. The natural color is light brown with a yellow or reddish tint. Spots, knots and blemishes are characteristic.

MAPLE

Maple has a fine, smooth grain. Color varies from nearly white to slightly reddish brown. Mineral or sugar streaks occur naturally and can vary from piece to piece.

RED OAK

Red oak has a long linear grain, often displaying tiny rays. Coloration ranges from a golden wheat to deeper tones that can include grays and greens. May have small pinholes and tiny knots.

WALNUT

Walnut grain is irregular, but typically straight, with medium texture. It varies in color from light brown to dark chocolate. Occasional dark streaks, purplish brown cast, and wavy grain are attractive features.

WHITE OAK

White oak is mostly straight-grained with a medium-to-coarse texture. Having longer rays than red oak, white oak has more figure.

MDF

Medium-density fiberboard is an engineered wood product. Softwood fibers are combined with a resin binder then formed into panels. MDF has no grain and little tendency to split making it a good paint grade option.

MOISTURE RESISTANT MDF

Moisture resistant, paint grade MDF is the recommended choice for doors that will be installed in bathrooms, kitchens, basements, or other high-humidity areas in your home.

	Unfinished	Natural	Medium	Cherry	Burnt Coal	Dark
CHERRY						
KNOTTY ALDER						
MAPLE						
RED OAK						
WALNUT						
WHITE OAK						

All doors are constructed in MDF with a hardwood veneer. Face frame, cabinet doors, and top casing are solid hardwood.

PAINTE GRADE					
	Primer Only 				

Paint grade doors are constructed with MDF. Face frame, cabinet doors, and top casing are solid maple.

A man in a blue button-down shirt is sitting at a dark wooden table, looking at a laptop. On the table is a white bowl filled with green leafy vegetables. The background is a plain, light-colored wall.

WHY MURPHY DOOR CAN'T BE IMITATED?

Pride in Our Builds

Because we take pride in everything we build, Murphy Door will warrant your purchase of defects in material and workmanship under normal use and maintenance for a period of one (1) year from the date of original purchase.

Murphy Door Inc. will provide replacement parts for any parts found to be defective. Original part(s) approved for return by Murphy Door's customer service department must be returned prepaid. This warranty does not include labor charges connected with the determination or replacement of defective parts, or freight charges to ship these parts.

Murphy Door Inc. shall not be liable under this or any implied warranty for incidental or consequential damages. This warranty gives the retail customer specific legal rights and the customer may have other rights which vary from state to state.

This warranty shall be void if the unit is not assembled or operated in accordance with the operation instructions provided with this unit; the unit is re-sold or traded to another owner; components, accessories; or the user has abused or otherwise failed to maintain the unit.

To process a warranty claim, Murphy Door requires you to register your product on our BILT app available through the Apple app store or Android Google Play store and proof of your date of purchase. You should retain your sales slip or invoice with your valuable documents.

MURPHY DOOR

01

Getting Started

Determine the location of your secret door. Then, select a door to match your space.

02

Measuring

Watch the videos on our website to see exactly where and how to measure. Measurements can be taken on a pre-existing door frame or in a wall's rough opening where a door frame has been removed or not yet placed.

03

Placing Your Order

With your measurements in hand and your door selected, complete your order online by selecting a few final customization options. Choose your preferred wood type and finish, swing or open direction, and more.

04

Receiving Your Order

After your order is placed, we'll send regular updates as your door moves through production. You'll be the first to know when it's headed to your home so you can sign on delivery. Be sure to check for damage on arrival, and have a dolly or helper nearby.

05

Installation

Download the free 3D Interactive BILT instructions for easy installation.

FAQs

What is the depth of the book shelves?

The overall depth of the standard door is 8-1/4", inside shelf depth 6-1/4".

5-1/4" out-swing, 6-1/4" in-swing, and 10 or 12" in or out-swing available.

Will the original door frame in my house need to be removed?

Yes, the original door frame/jamb needs to be removed and replaced with the jamb that comes with the door.

Which door swing offers the greatest amount of open clearance?

In-swing doors allow for the greatest amount of pass through space but require wall clearance when fully open. Out-swing doors have less pass through space but won't require wall clearance.

We recommend viewing our Pass Through page, online, to find the best solution for your situation.

What clearance is needed to mount an in-swing door near an interior corner?

With an 8-1/4" deep door, you will need at least 1-1/2" from the edge of your door jamb to the adjacent wall in order for the door to open fully without hitting the wall. With a 12" deep door, you will need at least 5-1/2" of clearance.

Will this door work on a 2x6 framed wall?

Yes, our doors will work on 2" x 4" and 2" x 6" framed wall. They can be configured as an in or out-swing door.

How much will the flush mount door protrude past the 4-9/16" jamb on the back side?

For a standard 8-1/4" deep door, the door will protrude roughly 3 inches past the back of the jamb. Clearance behind the door will need to be considered prior to ordering your door, to ensure proper function.

How far will the doors open?

The swing-arc is 90 degrees.

Why are your doors made with MDF?

Solid hardwood and softwood - prone to swelling, bowing, and splitting - are rarely used in cabinet manufacturing today. Our doors are constructed using a MDF or Plywood Core - 3/4" sides, 1-1/2" top and bottom, 3/4" shelves, 1/2" back panel, 3/4" casings - paint-grade and wood veneer options are available. The face frame and cabinet doors are 3/4" solid hardwood. MDF cores carry our full 1 year warranty. Plywood cores have a 30 day warranty due to a higher risk of delamination.

How wide are the trim/casing pieces on the door?

Our doors come with 3-3/4" wide trim/casing. You can substitute your own casing if you want to match existing trim in your home.

Will the back of the door be finished?

The back of the door will be finished like the shelf side of the door. If you have a stained or painted door, the backside will also be stained or painted. There will however be visible screw heads holding the back in place and gaps around the door that are necessary for the door to function. Decorative back options and rear casing are available if you desire a more finished look.

How much weight will each door support?

Our doors are designed to carry up to 300 lbs. We have designed them to be functional and elegant.

Do books/object fall off the shelf when the door is opened or closed?

The items that you put on your shelves are very stable and will stay safe and secure. With that being said, there are limitations. We would not suggest putting irreplaceable items on the shelves if you have young children that may be tempted to slam the door. We would also not recommend putting top-heavy items that could easily tip, even on a non-moving shelf.

Can a door be used between my house and garage? Are they fire-rated?

No, these doors are rated as interior doors and will not provide the needed fire protection rating for a door between a garage and home.

Is this door as sound dampening as an average interior door?

Our doors are as sound dampening as an average interior door. Depending on what you place on your shelves, it may be more dampening.

Does this come with wheels on the bottom to offset the weight on the hinges?

No, there are no wheels on our flush mount doors, as a rolling wheel would damage your flooring. The weight of the door is carried by our patented hinge system.

Does the door latch?

Your door will come with a poly-wedge catch point at the bottom of the door. The friction door catch can be adjusted to make the door easier or harder to open and close.

How does it open? Is there a handle? I want to be sure no one can get stuck inside the hidden room!

Our doors are easily opened from the front or the back. In-swing doors will open when you push on the face frame or pull from behind. Out-swing doors open when you pull on the fixed shelf or the face frame near the fixed shelf or push from behind .

What locking options do you offer?

We offer a simple mechanical key lock as well as an electromagnetic push button lock. Fingerprint scanners, keypads, and wireless key fobs are also available.

What care and maintenance is needed?

Use a soft or lightly damp cloth, then wipe with a clean dry cloth to clean. Do not use harsh chemicals or cleaning supplies as they can damage the finish. Dust with a clean dry lint-free cloth

Clean up spills immediately. Blot rather than wipe to avoid damaging the finish. Water or moisture left over long periods of time will cause water spots and damage to the finish.

Periodically rotate items on the shelves to avoid damage. Lift rather than drag items to their desired position.
