Key Selling Points

React faster to the action
Enemies have nowhere to hide
Easier user interface

Product Features

React faster to the action

Dynamic Action Sync mode allows you to instantly react to your opponents and attack them without any display lag. It synchronizes your senses with real-time scenes in fast-paced games by minimizing input lag.

Enemies have nowhere to hide

Black Stabilizer gives you full visual clarity, even in games where you spend a lot of time in the dark. It synchronizes and brightens the darkest areas, so that you can find enemies hiding in the shadows and shoot first.

Easier user interface

On-screen control is simple and intuitive. You can customize your display options with a few simple clicks.
