Let's rock with AMUMU! 🤘

PACKAGE CONTENTS

Guitar Strap x1

Headstock Lace-tie x1

Headstock Button-tie x1

Rubber Strap Blocks x2

STRAP ATTACHMENT

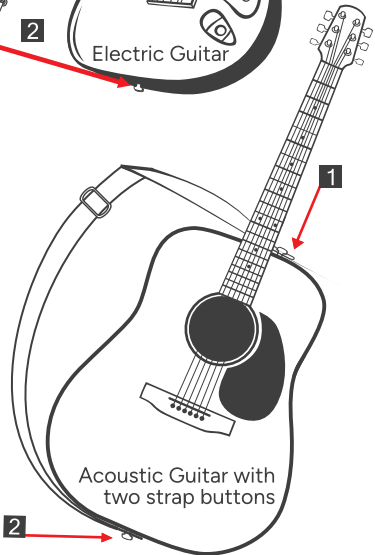

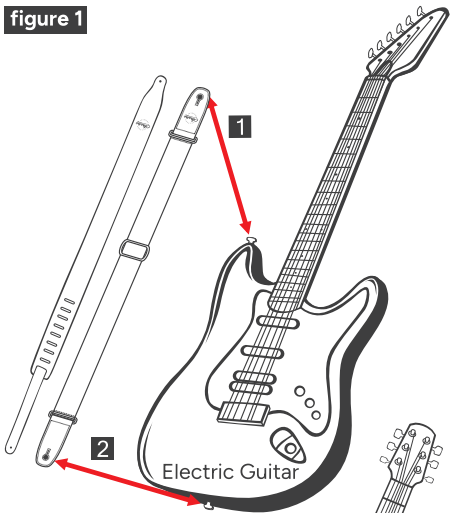

Guitars With Two Strap Buttons **figure 1**

- 1** Put the strap end of the logo side over the strap button near the guitar neck.
- 2** Put the other strap end over the strap button on the guitar bottom.

*Secure your strap with the strap blocks to prevent any slippage. If your strap button still has extra space, use the strap blocks to fill the gap.

*Note that some strap buttons are shorter, while others are longer and provide enough height to accommodate both the leather end and the strap block securely. **figure 3**

STRAP ATTACHMENT

Guitars With One Strap Button **figure 2**

- 1** Choose a strap tie (Lace-Tie or Button-Tie) from the two included ones.
 - a** For the Lace-Tie, cross the lace through the hole on the leather end of the strap's logo side, then cross it under the strings on the guitar neck and between the nut and the tuning pegs.
 - b** For the Button-Tie, put the button inside the leather end of the strap's logo side, then cross the tie under the strings on the guitar neck and between the nut and the tuning pegs, and then button up.
- 2** Put the other leather end over the strap button on the guitar bottom.

STRAP ATTACHMENT

HOW TO USE THE STRAP BLOCKS **figure 3**

After attaching the strap to your guitar, use the strap blocks to cover both of the strap buttons to prevent the strap from slipping off the guitar.

STRAP LENGTH ADJUSTMENT

For Buckle Type

Pull the buckle to adjust the strap to your desired length

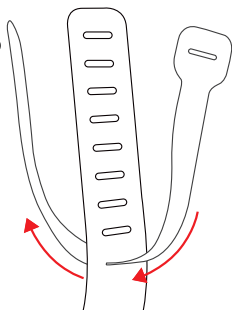

For Feed-Through Type

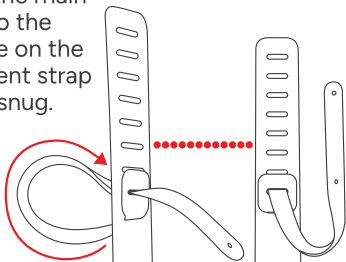

1 Take out and identify the main strap and the adjusting strap

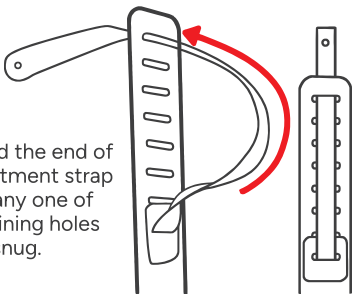

2 Insert the adjusting strap into the desired tube hole on the main strap with the desired length.

3 Loop the end of the adjustment strap back through the adjacent tube hole on the main strap into the tube hole on the adjustment strap and pull snug.

4 Thread the end of the adjustment strap through any one of the remaining holes and pull snug.

Unhappy?
