

Cadet Cattle Crush

Are you looking for an efficient and safe way to manage your cattle? Look no further! Our Cadet Cattle Crush is the perfect solution for farmers looking to keep their livestock healthy and secure. Our Cadet Cattle Crush is made with high-quality steel and features full height side gates and our walk through Boss Headbail to securely keep your animals in place. It also comes with a rear sliding gate, which makes it easy to move cattle in and out. With its durable construction and low maintenance design, our cattle crush will provide you with years of service. Contact us today to learn more about our cattle crush and how it can help you better manage your cattle.

Features

The gates swing on 20mm greasable spherical rod end bearings giving a smooth gate action and the ability to adjust your gates if they ever sag.

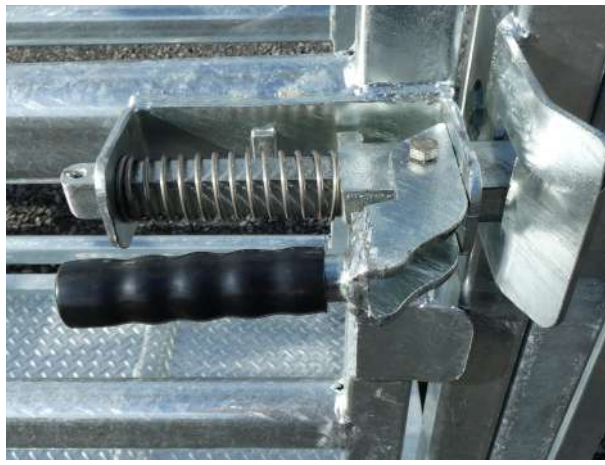

The Cadet Crush comes standard with a 5mm thick steel floor and steel cleats to provide great grip for your animals.

Wide loadbar mounts designed to fit all types of load cells.

The full height side gates swing fully open to give full access to your animal.

Heavy duty slam latches on gates featuring stainless steel springs and moulded hand grips.

Options

- Steel, rubber or no floor options.
- Rear operation handle
- Antibacking Ratchets
- Offside drafting handle
- Rear vet area.
