

# Kiwi Cattle Yards

Product Book  
2nd Edition

Proudly made by

**We specialise in providing farmers with quality, affordable cattle handling solutions.**

## Kiwi designed and built, for kiwi farmers

We are a small family owned business based on a farm near Levin in the Horowhenua. We pride ourselves on making top quality cattle handling products designed for farms of all sizes. We design, manufacture, market and ship our products meaning you will get top quality service and attention to detail.

### Delivery

We offer delivery of our products nationwide. All our products include free delivery to your nearest Mainfreight depot or we can arrange on farm delivery for you.

### Fully Galvanized

All our products are fully hot dipped galvanized after manufacture to meet AS/NZS 4680 (2006). This ensures all parts are covered in a protective zinc coating which means they will stay in excellent condition for many years.

### Affordable

We work hard to design and manufacture products that offer great value for money. As we come from a farming family we understand farming systems and we won't sell you something that you don't need.

## HEADBAILS

- 4 Standard Headbail
- 4 Heavy Duty Headbail
- 5 Boss Headbail
- 5 Ultimate Headbail

## CATTLE YARDS

- 6 Beef Series Cattle Yards

- 12 Master Crush
- 12 Grooming Chute
- 13 Cadet Crush
- 13 Multihandler

## CALF EQUIPMENT

- 14 Calf Headbail
- 14 Calf Loading Ramp

## LOADING RAMPS

- 15 Portable Loading Ramp
- 16 Heavy Duty Loading Ramp
- 16 Flat Top Loading Ramp
- 17 Lifestyle Loading Ramp
- 17 Adjustable Loading Ramp

## WOODEN YARD COMPONENTS

- 18 Cattle Yard Gates
- 18 Slam Latches
- 19 Sliding Gates
- 19 Antibacking Ratchets

# Standard Headbail

Our Standard Headbail is designed to handle any age of cattle and is one of the most affordable on the market.

## Our No.1 Seller

Our Standard Headbail was our first product that launched Kiwi Cattle Yards and still proves to be as popular as ever.

## Easy to use

Simple to set up, can be operated very easily by one person and from behind the animal.

## Simple to install

Comes complete with installation instructions and fitting kit including gudgeons and latch. Can be mounted on your steel or wooden yards.

## Suits all ages of cattle

Easily adjustable yoke width. 100mm closing width allows small calves to be held. Weight limit of 550kg.

## Left and right hand operation

Our unique design can easily be changed from right hand to left hand operation.

## Technical Information

Dimensions: 1500mm high x 830mm wide  
Weight: 45kg  
Construction: Hot dip galvanized steel frame.

'Just a quick note to say I have the headbail and I am thrilled with it. Branded 41 calves on Saturday and they worked like a dream. Really love the way they are made. Our family has been farming on banks peninsula since 1856. Always used rope and wooden crush with a pin to stop the bail moving once the head was caught. This is such a major improvement it's not funny. Certainly will pass on ur details to anyone who wants one.  
Cheers

John Thacker  
Banks Peninsular  
Standard Headbail

# Heavy Duty Headbail

Based on our popular design of the Standard Headbail, but beefed up to be one of the strongest headbails available.

## Bigger is Better

Our Heavy Duty Headbail is exactly that, Heavy Duty! Great if your animals are a little bit stropopy from time to time.

## Easy to use

Simple to set up, can be operated very easily by one person and from behind the animal.

## Simple to install

Comes complete with installation instructions and fitting kit including gudgeons and latch. Can be mounted on your steel or wooden yards.

## Suits all ages of cattle

Easily adjustable yoke width. 100mm closing width allows small calves to be held. No weight limit.

## Left and right hand operation

Our unique design can easily be changed from right hand to left hand operation.

## Technical Information

Dimensions: 1500mm high x 850mm wide  
Weight: 55kg  
Construction: Hot dip galvanized steel frame.

# Boss Headbail

Our entry level walk-thru headbail, great for the dairy shed or small to medium yards.

**Economical and effective**

Due to customer demand we now have a low cost quality, walk through headbail.

**Easy to use**

Locks in any position and is easily opened by lifting the lock.

**Simple to install**

Comes complete with installation instructions and fitting kit to bolt onto existing yards. Can be mounted on your steel or wooden yards.

**Suits all ages of cattle**

**Technical Information**

Dimensions: 2200mm high x 1300mm wide  
Weight: 180kg  
Construction: Hot dip galvanized steel frame.

# Beef Series Cattle Yards

Our beef cattle yards are heavier, stronger and aimed at the professional farmer. Choose from one of our plans on the next page or we can custom design a cattle yard to suit you.

The Beef Cattle Yard Packages comes either as a kit set with detailed assembly instructions, or our team can come and project manage the installation of your new yards. Our unique bolt together system means your cattle yards become a complete rigid unit when assembled and will not move about. The designs are either pegged down to a metal pad or bolted to a concrete pad, with no post or brackets required to be precast into the slab. In addition to our wide range of cattle yard designs, we also offer the option to design yards tailored to suit your needs. Contact us to have one of our experienced staff members discuss your stock handling requirements with you in more detail.

'A vast improvement over the old wooden yards we had, it's easy and safe to work my cattle by myself now.'

Dennis Sieverts  
Bunnythorpe  
BYP-90 Cattle Yard

### Some key features that make our beef series cattle yards superior:

- Super wide catwalks make drenching and loading safe and easy
- Large 3m yard entry gates help stock flow into your yard
- Post caps on all panels and gates finish the look of the yards and provide extra safety.
- All components bolt together to make a very strong unit
- Our modular system makes it easy to change or add to your yards at a later date
- All components fully hot dip galvanized
- All panels and gates 1.8m high
- Wide 70mm x 45mm Cattle rail on all contact areas ensures your stock remain in top condition.

# Yard Features

## Yard Gates

Our Yard Gates are self supported in their own 2.2m high frame, they come in either two or three metre widths and can swing both ways, they are secured with a 20mm slam latch.

## Yard Panels

Our Panels are 1.8m high with 6 rails. The standard length is 2.1m but we can custom make these to any length.

## Sliding Gates

Our Sliding Gates run on four nylon wheels and have an auto locking handle. We also have an optional top handle so you can operate the gate from your catwalk.

## Access Gates

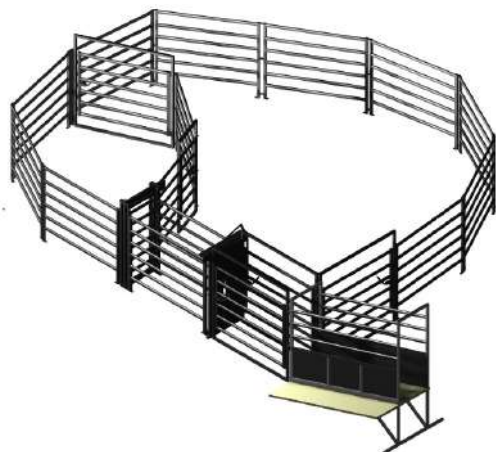

Our Access Gates can be placed anywhere throughout the yard and allows easy access between pens. The small 600mm wide gate is easy to open and close, this is also a great safety feature if you need to quickly move out of the way.

## Catwalks

Our Catwalks are designed for safety and ease of use. At 700mm wide they give you plenty of room to work, you can also safely walk past your co-worker. There are steps at each end of the catwalk to make it easy to get up and down. A handrail is also an optional extra.

## BYP-35

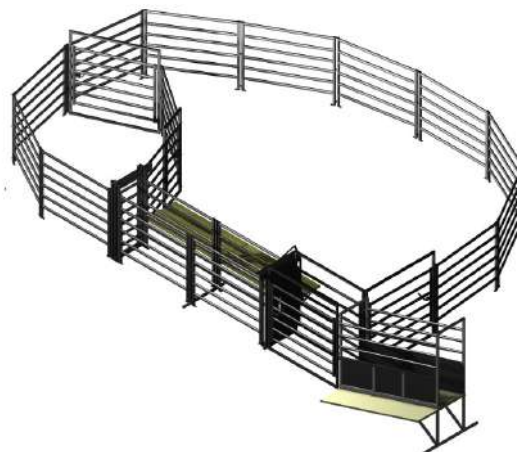

**Features:**

- 35 Head holding capacity
- 1 holding pen
- 1 forcing pen
- Loading ramp
- 3-way drafting
- 1.8m high heavy duty panels

**Specifications:**

- Total size 8.6m x 12.3m
- Pen sizes, 43m<sup>2</sup> and 12m<sup>2</sup>
- Total yard area, 56m<sup>2</sup>

## BYP-45

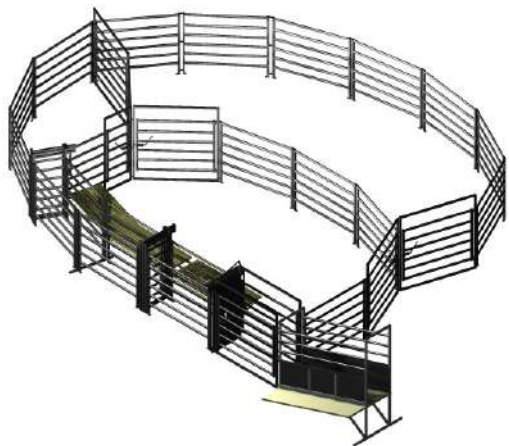

**Features:**

- 45 Head holding capacity
- 1 holding pen
- 1 forcing pen
- Loading ramp
- Catwalk
- 3-way drafting
- 1.8m high heavy duty panels

**Specifications:**

- Total size 8.2m x 14.5m
- Pen sizes, 58m<sup>2</sup> and 12m<sup>2</sup>
- Total yard area, 70m<sup>2</sup>

## BYP-50

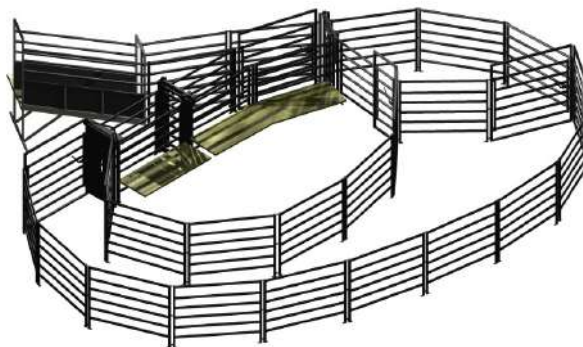

**Features:**

- 50 Head holding capacity
- 2 holding pens
- 1 forcing pen
- Loading ramp
- Catwalk
- 3-way drafting
- 1.8m high heavy duty panels

**Specifications:**

- Total size 15.4m x 10.6m
- Pen sizes, 47m<sup>2</sup> and 37m<sup>2</sup>
- Total yard area, 95m<sup>2</sup>

## BYP-55

**Features:**

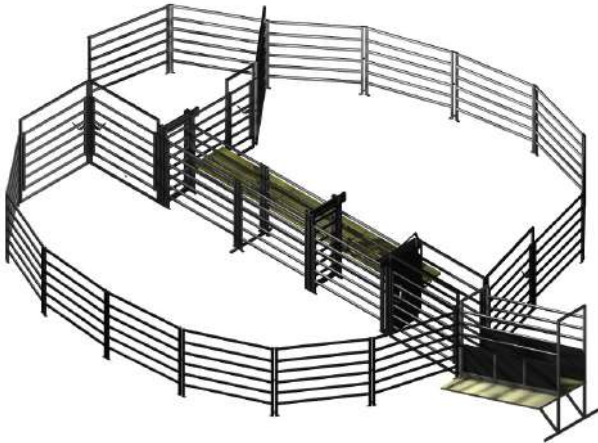

- 55 Head holding capacity
- 2 holding pens
- 1 forcing pen
- Loading ramp
- Catwalk
- 3-way drafting
- 1.8m high heavy duty panels

**Specifications:**

- Total size 12.4m x 14.1m
- Pen sizes 49m<sup>2</sup> and 32m<sup>2</sup>
- Total yard area, 92m<sup>2</sup>

# BYP-60

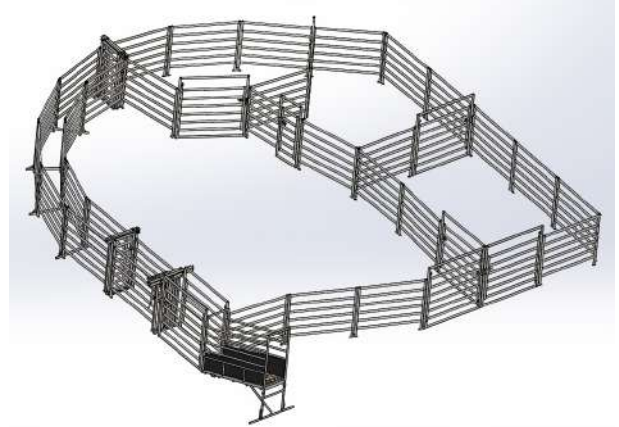

**Features:**

- 60 Head holding capacity
- 2 holding pens
- 1 forcing pen
- Loading ramp
- Catwalk
- 3-way drafting
- 1.8m high heavy duty panels

**Specifications:**

- Total size 12m x 16m
- Pen sizes 48m<sup>2</sup> and 35m<sup>2</sup>
- Total yard area, 105m<sup>2</sup>

# BYP-90

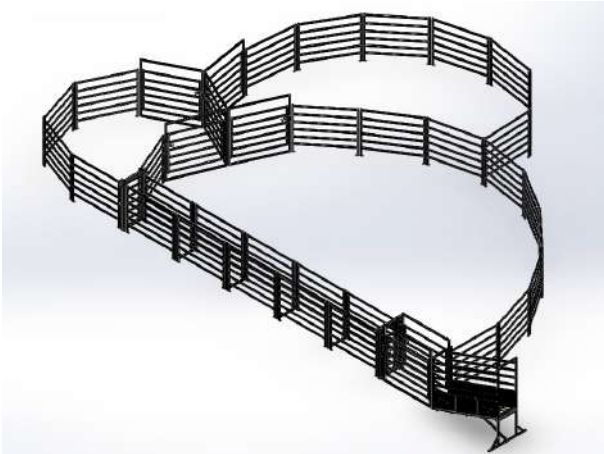

**Features:**

- 90 Head holding capacity
- 3 holding pens
- 1 forcing pen
- Loading ramp
- Catwalk
- 3-way drafting
- 1.8m high heavy duty panels

**Specifications:**

- Total size 16.8 m x 13.8m
- Pen sizes, 90m<sup>2</sup>, 24m<sup>2</sup> and 21m<sup>2</sup>
- Total yard area, 153m<sup>2</sup>

# BYP-100

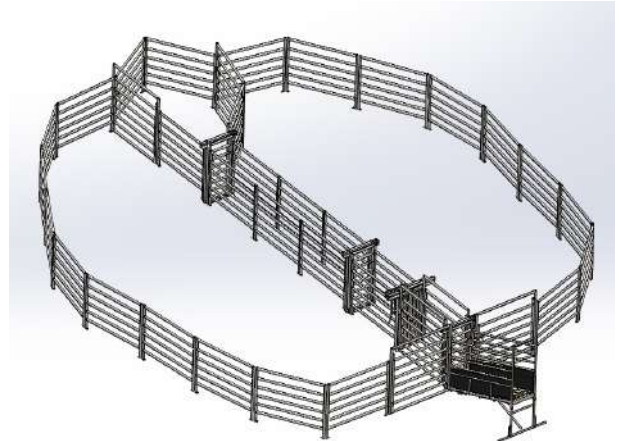

**Features:**

- 100 Head holding capacity
- 2 holding pens
- 1 forcing pen
- Loading ramp
- Catwalk
- 3-way drafting
- 1.8m high heavy duty panels

**Specifications:**

- Total size 21.7m x 14m
- Pen sizes, 106m<sup>2</sup> and 47m<sup>2</sup>
- Total yard area, 173m<sup>2</sup>

# BYP-110

**Features:**

- 110 Head holding capacity
- 2 holding pens
- 1 forcing pen
- Loading ramp
- Catwalk
- 3-way drafting
- 1.8m high heavy duty panels

**Specifications:**

- Total size 19m x 15m
- Pen sizes, 81m<sup>2</sup> and 79m<sup>2</sup>
- Total yard area, 170m<sup>2</sup>

# Lifestyle Series Cattle Yards

Our Lifestyle Cattle Yard Series has been designed with the small block holder in mind and offers a complete handling system at a great price.

## Lifestyle Yard Package #5

With 5, 10 and 20 animal sizes available, this package is ideal for making loading, bailing, weighing and drenching your animals easy.

Yard package includes:

### **Multihandler**

Includes headbail, loading ramp, sliding gate and weight platform, the all-in-one tool for making your stock work easy.

### **Panels**

1.6m high with six rails

### **Gates**

Easily slam shut with our specially designed spring loaded slam latch with 20mm pin.

### **Antibacking bar**

For moving forward those stubborn cattle.

### **Loading ramp**

With five adjustable heights to suit any vehicle.

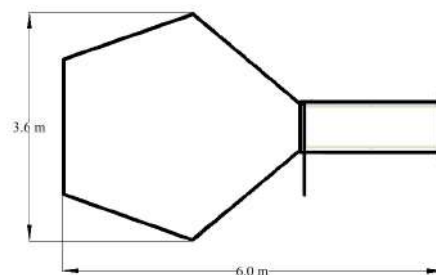

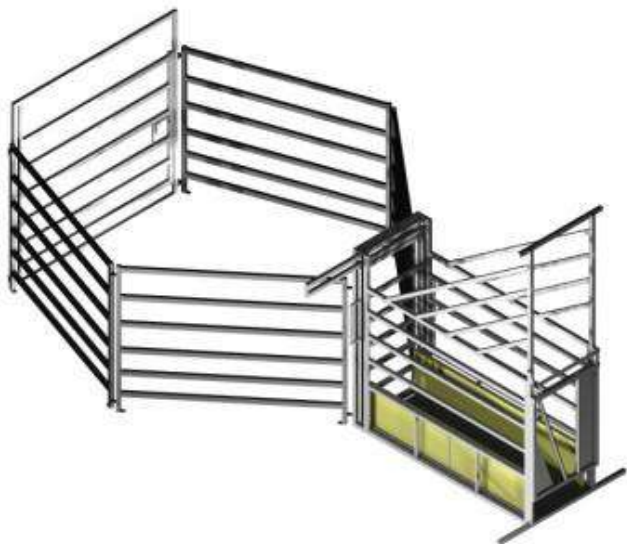

### **Bolt together system**

Our unique system that eliminates noise associated with other steel yards.

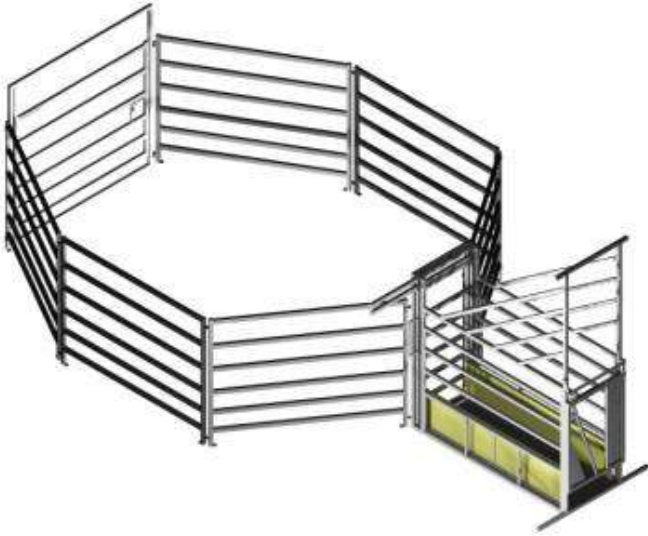

### **Ground Pegs**

400mm long pegs to secure your yards.

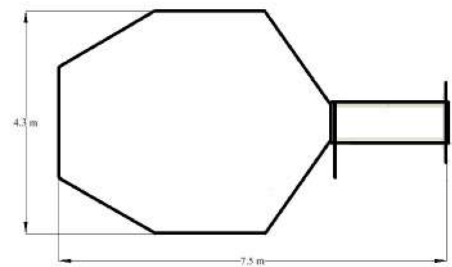

- The smallest full yard package available
- Designed to hold up to five animals at a time.
- Great for the lifestyle farmer who occasionally need to tend to their animals.

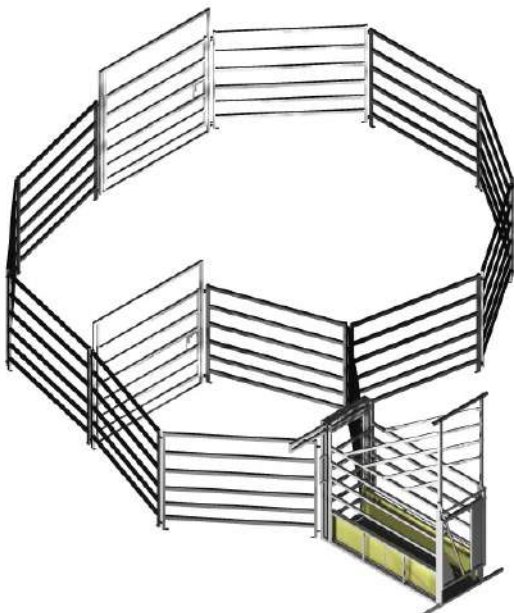

# Lifestyle Yard Package #10

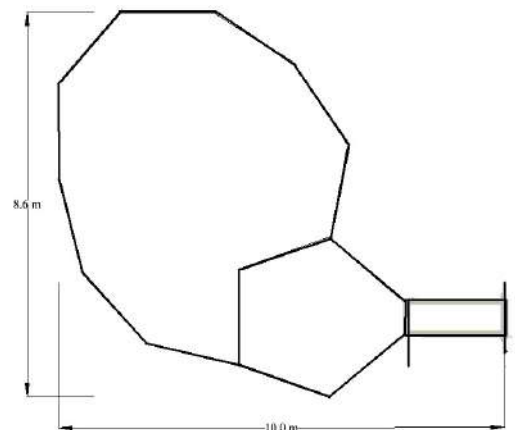

- The same basic design as Lifestyle Package #5 but with a slightly bigger yard.
- Designed to hold up to ten animals at a time.

# Lifestyle Yard Package #20

- This yard package includes two pens.
- Great for drafting or separating cattle.
- Designed to hold up to 20 animals at a time.

"We had a family Xmas afternoon putting the yards together to work up an appetite. Great yards and all the families real farmers are very impressed. Yards are the talk of our road and they work really well with our Galloway cattle.

Thanks very much for your yards and great service."

Regards Wally Kopae  
Invercargill  
LSP-10 Cattle yard

# Master Crush

Our Master Crush - quality at an affordable price with features not standard on many other crushes.

Our Master Crush is strong, simple and easy to use. This affordable unit will make your cattle handling a breeze.

### Standard features

Ultimate headbail, with automatic and manual operation and rear operation handle.  
Auto locking sliding gate.  
Side opening gates with slam latches.  
Loadbar mounts.  
Antibacking ratchets.  
Steel floor.

### Optional features

Rubber floor  
Offside drafting handle  
Rear vet area.

### Heavy duty build

No weight limit.

### Left or right hand models available

Just let us know at time of ordering, left hand operation pictured.

### Technical Information

Dimensions: 2000mm high x 850mm wide x 3000mm long  
Weight: 670kg

### Left and right-hand operation

Our unique design can easily be changed from right-hand to left-hand operation.

### Technical Information

Dimensions: 1200mm high x 450mm wide

Weight: 25kg

Construction: Fully hot dipped galvanized

# Calf Loading Ramp

Our Calf Loading Ramp will ensure you comply with the regulations while making your job safer and easier.

Our Calf Loading Ramp is ideal for loading calves and young stock.

### Strong Construction

Heavy duty 40x40mm main frame

### Non slip floor

40mm thick treated pine floor

40mm high pine cleats give great grip.

### Tough and durable sides

12mm thick ply sides not only look good but will last the test of time.

### Full loading height

1100mm loading height for full sized stock trucks.

### Technical Information

Dimensions: Overall 2200mm high x 1650mm wide x 3000mm long

Loading height: 1100mm

Ramp angle: 20 degrees

Weight: 195kg

Construction: Hot dip galvanized steel frame, ply sides, treated pine floor.

# Portable Loading Ramp

Our Portable Loading Ramp trailer kit makes moving your loading ramp fast and easy.

## Optional Transport Kit

Our Loading Ramp Transport Kit suits our Lifestyle Loading Ramp and Adjustable Loading Ramp only.

The trailer frame simply clips onto the ramp and lifts it off the ground.

Great for moving between sets of yards or blocks of land.

## Strong Construction

75x50mm main frame

## Quality Components

14 inch galvanized wheels

1 7/8 coupling.

## Simple operation

Easy to attach by just one person.

**Designed for off road use only.**

# Alloy Weigh Platform

Drop our premium rubber lined weigh platform into your raceway for hassle free weighing.

Our Alloy Weigh Platform is ideal for weighing your animals.

## Strong Construction

4mm one piece folded alloy design for superior strength.

## Non-slip floor

Our platforms come standard with heavy duty non-slip rubber matting.

## Multi-fit

Will fit all makes of 600mm wide loadbars.

## Technical Information

Dimensions: Overall 2200mm long x 650mm wide

Weight: 40kg

Construction: 4mm aluminium plate, 15mm non-slip rubber matting.

# Heavy Duty Loading Ramp

Our heavy duty loading ramp designed for the serious farmer.

Our Heavy Duty Loading Ramp is designed for heavy use by the serious farmer and is available with optional catwalk.

### **Strong Construction**

Heavy duty 70x45mm cattle rail and 50x50mm main frame

### **Non slip floor**

50mm thick treated pine floor  
40mm square steel cleats give great grip.

### **Tough and durable sides**

12mm thick polythene sides not only look good but will last the test of time.

### **Optional Catwalk**

Available with optional 800mm wide catwalk, complete with hand rail.

### **Full loading height**

1100mm loading height for full sized stock trucks.

### **Technical Information**

Dimensions: Overall 3225mm high x 2100mm wide x 3000mm long  
Loading height: 1100mm  
Ramp angle: 20 degrees  
Weight: 260kg  
Construction: Hot dip galvanized steel frame, polythene sides, treated pine floor.

# Flat Top Loading Ramp

Our flat top loading ramp is great for improved animal flow and safety.

### **Move 'em Out!**

Our Flat Top Loading Ramp is best of all ramps. The flat top and access gate greatly improves cattle flow and safety.

### **Strong Construction**

Heavy duty 70x45mm cattle rail and 50x50mm main frame

### **Non slip floor**

50mm thick treated pine floor  
40mm square steel cleats give great grip.

### **Tough and durable sides**

12mm thick polythene sides not only look good but will last the test of time.

### **Full loading height**

1100mm loading height for full sized stock trucks.

### **Technical Information**

Dimensions: Overall 3225mm high x 2100mm wide x 4000mm long  
Loading height: 1100mm  
Ramp angle: 20 degrees  
Weight: 400kg  
Construction: Hot dip galvanized steel frame, polythene sides, treated pine floor.

# Lifestyle Loading Ramp

This medium duty loading ramp makes loading your livestock easy. Can also be made portable with our optional transport kit.

Our Lifestyle Series Loading Ramp is designed for occasional use and is available with optional transport kit.

#### Strong Construction

Heavy duty 55x35mm cattle rail and 40x40mm main frame

#### Non slip floor

40mm thick treated pine floor  
40mm square steel cleats give great grip.

#### Tough and durable sides

12mm thick polythene sides not only look good but will last the test of time.

#### Optional transport kit

Available with optional transport kit to make this ramp portable.

#### Full loading height

1100mm loading height for full sized stock trucks.

#### Technical Information

Dimensions: Overall 3000mm high x 1650mm wide x 3000mm long

Loading height: 1100mm

Ramp angle: 20 degrees

Weight: 210kg

Construction: Hot dip galvanized steel frame, polythene sides, treated pine floor.

# Adjustable Loading Ramp

Our adjustable Loading Ramp makes loading livestock easy. Great for loading the ute, trailer or full size stock truck.

Easily adjust the ramp height from 500mm to 1100mm high for easy loading of different vehicles.

#### Strong Construction

Heavy duty 55x35mm cattle rail and 40x40mm main frame

#### Non slip floor

40mm thick treated pine floor  
40mm square steel cleats give great grip.

#### Tough and durable sides

12mm thick polythene sides not only look good but will last the test of time.

#### Optional transport kit

Available with optional transport kit to make this ramp portable.

#### Technical Information

Dimensions: Overall 3000mm high x 1650mm wide x 3000mm long

Loading height: 500-1100mm

Ramp angle: 20 degrees

Weight: 210kg

Construction: Hot dip galvanized steel frame, polythene sides, treated pine floor.

# Wooden Yard Components

We make a full range of steel yard components to compliment your wooden cattle yards. Our proucts will make your cattle handling safer and easier

## Cattle Yard Gates

Our gates are lighter and stronger than wooden gates and won't sag or bow.

We got some from you a few years ago and we have been very happy with them

Adam Kearney  
Waihi  
Cattle yard gates

Our Cattle Yard Gates never sag and are lighter and stronger than their wooden equivalents. Our gates come with 5 or 6 rails and in 8 standard lengths.

### Strong construction

Heavy duty 70x45mm cattle rail and 50x50mm main frame.

### Latch options

Designed to fit our range of Slam Latches. Can be used with traditional chain type latch.

### 20mm gudgeons

Will fit standard 20mm gate gudgeons.

### Two heights available

1540 or 1220mm high.

### Custom widths available

Contact us for more information.

### Technical Information

Dimensions: 750mm - 3600mm wide, 1540mm high  
Weight: from 26kg (750mm wide gate)  
Construction: Hot dip galvanized steel frame, 3 x 20mm hinges

'The Latch is epic as' Cheers

Steve Jackson - Hamilton  
20mm slam latch

## Slam Latches

Our slam latches are a great addition to your yards. Available in two sizes, either bolt them to our cattle yard gates or your existing wooden gates.

Install our Slam Latches to make your gates latch hands free, improving safety in your cattle yards.

### Easy to use

The cam design means our latches are easily opened with minimal effort

### Two sizes available

20mm latch designed for low pressure areas, holding pens etc.

25mm latch designed for high pressure areas, forcing pens, race entry/exit etc.

### Simple to fit

Just bolt to your gate

### Striker plate included

Curved design for post or rail

### Left and right hand operation

Our unique design can easily be changed from right hand to left hand operation.

### Technical Information

Dimensions: 75mm wide x 300mm long  
Weight: 3kg  
Construction: Hot dip galvanized, stainless steel spring and roll pin.

# Sliding Gates

Our sliding gates are a great addition to your yards, making them safer and more efficient to use.

Our Sliding Gates are a great addition to a drenching race or crush area. Operate from outside of the danger zone and keep safe.

### Strong construction

Heavy duty 70x45mm cattle rail and 50x50mm main frame.

### Smooth running

4 replaceable nylon wheels ensure a smooth slide.

### Fitting kit available

Post and rail brackets available to suit.

### Automatic locking

Ensures the gate stays where you left it, no more escaping animals.

### Made to last

Fully hot dipped galvanized

### Fully sheeted option also available

### Technical Information

Dimensions: Overall 2100mm high x 850mm wide x 250mm deep

Weight: 100kg

Construction: Hot dip galvanized steel frame, nylon wheels.

'We've got the vet coming tomorrow, might have to use ratchets for "beast", otherwise quite happy with our purchase, hard to believe we not invested into it years ago!!!'

Cheers Andrew McEwen  
Feilding  
Anti-backing Ratchets

# Antibacking Ratchets

Our antibacking ratchets are designed to easily be fitted to your existing steel or wooden yards

These 1200mm long heavy duty ratchets make it easy to move that stubborn animal forward.

### Everything you need

Includes a set of ratchets (left and right), backing bar, backing bar hooks, mounting bolts and instructions.

### Built to last

10mm thick ratchets won't bend.

### Versatile

Fit to wooden or steel yards.

Will bolt to rails with gap of 125mm - 300mm.

### Backing bar

50mm round pipe minimizes bruising to your animal.

Stores neatly when not in use.

### Technical Information

1200mm long x 40mm wide x 200mm high

Weight: 35kg

Construction: Hot dip galvanized steel frame, heavy duty ratchets, comes complete with fitting kit and backing bar.
