General Warning

- This device contains electronic components which operate via a power source (batteries). Do not let children use the device while unattended. Only use the device as described in the manual, or you run the risk of an electric shock.
- Keep batteries out of the reach of children. Make sure you insert the batteries correctly. Empty or damaged batteries could cause burns if they come into contact with the skin. If necessary, wear adequate gloves for protection.
- Do not expose the device to high temperatures. Use only the included power supply or the recommended batteries. Do not short-circuit the device or batteries or throw them into a fire. Excessive heat or improper handling could trigger a short-circuit, a fire or even an explosion.
- Do not disassemble the device. In the event of a defect, please contact the service center.
- Use only the recommended batteries. Always replace weak or empty batteries with a new, complete set of batteries at full capacity. Do not use batteries from different brands or with different capacities. The batteries should be removed from the unit if it has not been used for a long time.

Disposal

- Dispose of the packaging materials properly, according to their type, such as paper or card-board. Contact your local waste-disposal service or environmental authority for information on the proper disposal.
- In accordance with the regulations concerning batteries and rechargeable batteries, disposing of them in normal household waste is explicitly forbidden. Please be sure to dispose of your used batteries as required by law — at a local collection point or in the retail market. Disposal in domestic waste violates the Battery Directive.
- Batteries that contain toxins are marked with a sign and a chemical symbol.
