

# Weems & Plath LIFETIME Warranty

Your Weems & Plath product is warranted against defects in material and workmanship for as long as you own the instrument. Any defect caused by misuse, accident, tampering or negligence of the user is not covered by this warranty.

**Caution:** If your product is battery operated, movement damage caused by battery leakage is not covered under warranty. A clock movement continues to pull voltage from the battery until the battery dies. Leaving a dead battery in place causes the battery to leak acid which destroys the movement. For this reason, it is important to replace the battery once a year, even if the battery is not dead at the time of replacement. If the instrument is not in use, remove the battery to reduce the possibility of costly movement damage.

**Caution:** The finish on brass or chrome instruments is not covered under warranty unless specifically noted (i.e. Endurance Collections). Fingerprints should be cleaned off immediately and instruments should be wiped regularly with a soft cloth to keep finish from pitting.

To prolong the life of your instrument on a boat, we recommend the use of solar fan vents, and removal from the boat when not in use to avoid the harsh marine environment.

Buyer's exclusive remedy in the event of a defect or non-conformity in the products is limited, at the option of seller, to return the product for repayment of the price or to repair the product and replacement of the non-conforming or defective goods or parts.

Weems & Plath shall not be liable for any indirect, special, exemplary, incidental or consequential damages arising out of a defect or non-conformity in the product. The implied warranty of the merchantability and the implied warranty of fitness are excluded. There are no warranties which extend beyond the description on the face of this warranty.
