Rotary Die Cutting: Expand your custom capabilities.

In an industry competing to fulfill customer demands for unique and differentiating print finished pieces you will find rotary die cutters providing their worth. Rotary die cutting provides immense flexibility in the design of finished pieces which can be specifically tailored to the customer's request. Flexible dies can perform cuts, kiss cuts, slits, slit-scores, perforations, de-bossing, pull-away reveals, and window punches. The RD435 produces a variety of print and packaging products such as custom-shaped business cards, table tents, labels, greeting cards, folded boxes, and more.
