

Anthony & Gillian Barker began this journey because they needed to diversify on their small family farm. Driven by need, Anthony's passion for invention and a plentiful supply of local fruit, the family created a pioneering preserves business. They discovered the art of adding flavour and flair to everyday meals and this remains at the core of our business today.

In our 50th year, we are delighted to partner with like-minded food producers to bring you the best from around our region.
