

ART OF THE MASTERS PROGRAM
PRESENTS THE LIFE & WORK OF
Alexander Calder

› Please come join us in exploring the life and work of American artist Alexander Calder. His work redefined sculpture by introducing the element of movement, first through performances of his mechanical *Calder's Circus* and later with motorized works, and, finally, with hanging works called "mobiles." In addition to his abstract mobiles, Calder also created static sculptures, called "stabiles," as well as paintings, jewelry, theater sets, and costumes.

› During our hands-on session, participants will have the opportunity to create a colorful group mobile that will move with the wind. What an amazing experience to create something that will come to life right in front of us all.
