

ART OF THE MASTERS PROGRAM
PRESENTS THE LIFE & WORK OF
VANCE KIRKLAND

> Please come join us in exploring the life and work of the mysterious, visionary Colorado painter Vance Kirkland who painted in Denver for 53 years until his death. During this time, he created five major painting periods; ending with Abstract Expressionism & The Dot Paintings (1963-1981). Long before the Apollo moonwalk and the Hubble Telescope, Kirkland portrayed far away galaxies and nebulae. His space environments, from the last half of his career, are not something seen through a telescope; they are brilliant abstractions of the ideas of energy, vast distances, long durations of time, and mysteries of outer space.

> During our hands-on session, participants will have the opportunity to create their own abstract universe through the process of palette knife & dot painting. Afterwards, paintings will be framed and signed.

Put in on the calendar today. This workshop is going to be a blast!

DATE @ TIME: _____ **LOCATION:** _____

** All levels (from "I've never created artwork" to the life-long artist) are welcome to attend. ***
