

# ART OF THE MASTERS PROGRAM

PRESENTS THE LIFE & WORK OF

# AMEDEO MODIGLIANI

> Please come join us and discover the life and works of Amedeo Modigliani. This Italian born artist was influenced by primitive art such as Africa masks. Throughout his short life of 35 years, he truly created his own style of art which focused on simplicity of line and beauty of color. He was a truly unique artist who created some of the most interesting portraits that the art world had ever seen.

> During our hands-on session, participants will have the opportunity to work with Modigliani-like drawings. Focusing on line and color, students will work with markers and oil pastels to bring to life a Modigliani portrait. Hope to see you there :)
