

ART OF THE MASTERS PROGRAM
PRESENTS THE LIFE & WORK OF

ROBERT RAUSCHENBERG

> Robert Rauschenberg was an artist in the truest sense of the word. He is considered to be the most inventive artist since Pablo Picasso. His experimental approach to creating stretched the boundaries of the art world. His use of found objects in his paintings created a new type of art; half painting, half sculpture which he called *combines*. It was Rauschenberg's work that freed up artists from the Abstract Expressionism Movement which led to a new and exciting visual world.

> During our hands-on session, participants will have the opportunity to create a multimedia piece of artwork. Each student will pick an image to bring to life by using 5 different materials. At the end of the workshop, all artwork will be framed. *Please join us for this artistic adventure - it's going to be amazing!*

DATE @ TIME: _____ **LOCATION:** _____

** All levels (from "I've never created artwork" to the life-long artist) are welcome to attend. ***
