# Introducing the NEW Monarch Tray™ range

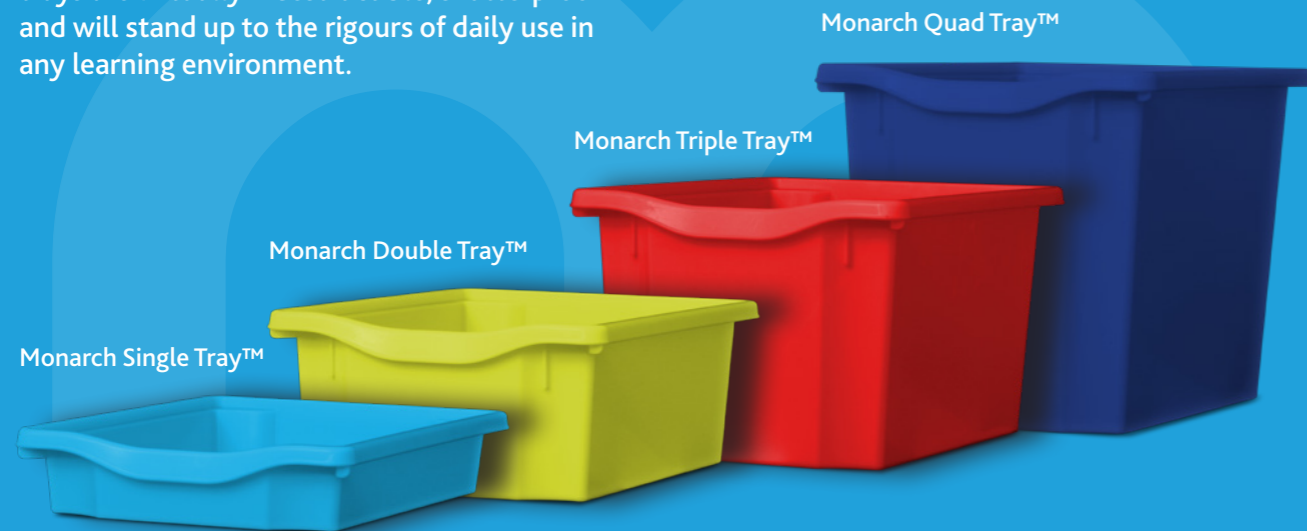

Our fantastic new range of trays have been truly designed for the 21st century!

Create inspiring learning environments with our trays - available in four different sizes and over 20 industry standard colours. You can be sure that we have something to suit your requirements.

Manufactured from 100% polypropylene, our trays are virtually indestructible, shatterproof and will stand up to the rigours of daily use in any learning environment.

The Monarch Tray™ range will fit all standard school furniture so upgrading to our trays will be as easy as 123.

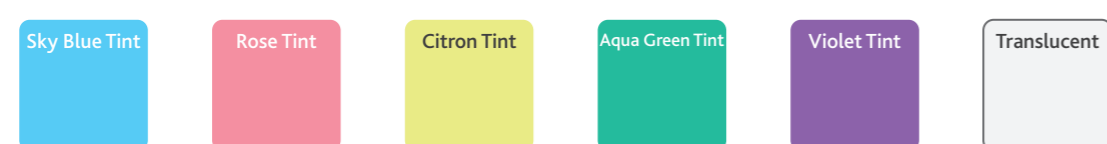

Our trays are manufactured to last but at end of life they can easily be recycled.

## Monarch Tray™ Classic Solid Colours

## Monarch Tray™ Classic Translucent & Tints

Colour chart disclaimer: We have made every effort to make the colours on this document as close as possible to the ones you will receive.

## Monarch Tray™ Features

Subtle rounding of corners creates a softer feel and touch.

Re-enforced side rib for extra strength.

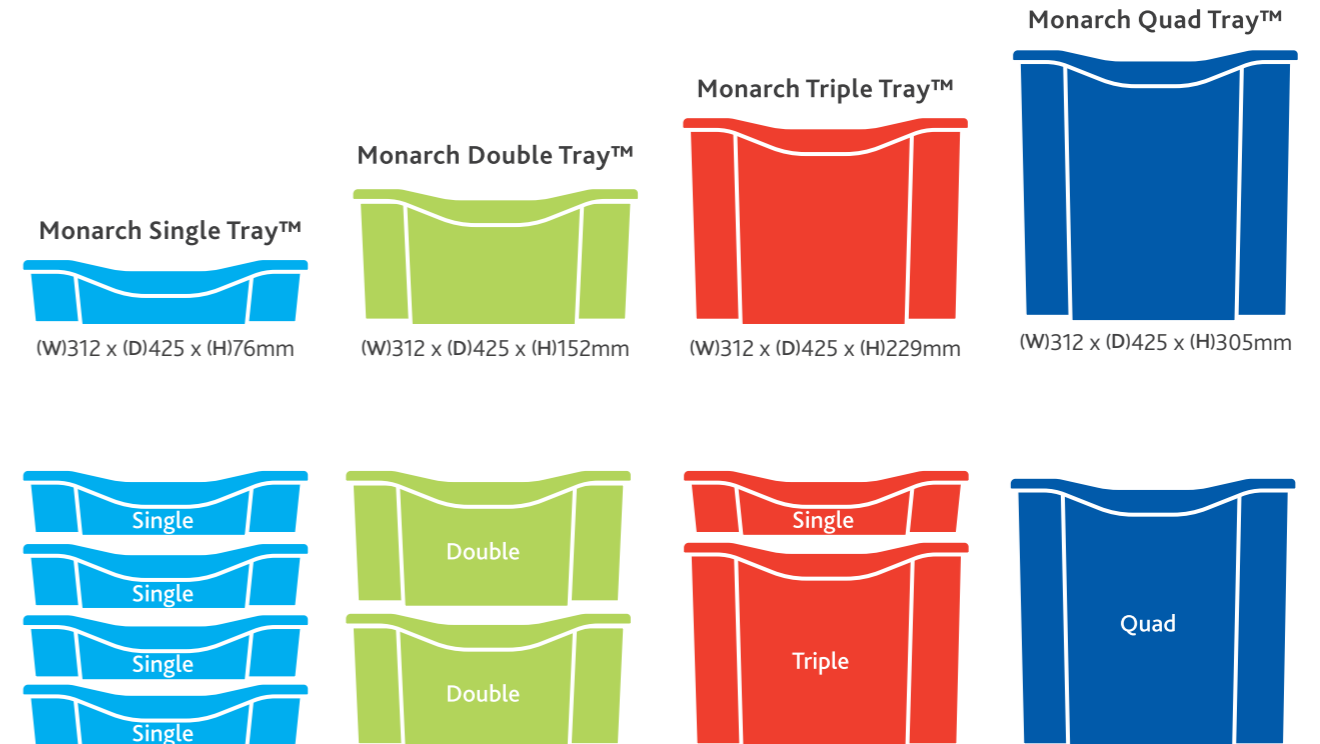

Scooped out base gives extra strength and stability.

The Monarch Lid™ fits perfectly onto the top of the tray.

## Monarch Tray™ Sizes

Monarch Single Tray™, Monarch Double Tray™, Monarch Triple Tray™, Monarch Quad Tray™, Monarch Lid™, Monarch Runner™ are all Trademarks™ of Monarch Education furniture.

## Monarch Trays™ and the Environment

We are committed to caring for our environment. Our tray manufacturing processes are incredibly efficient creating less than 1% wastage. Between 10 & 20% of the material used for each tray is recycled content, this level still allows us to ensure the structural integrity giving the tray its strength.

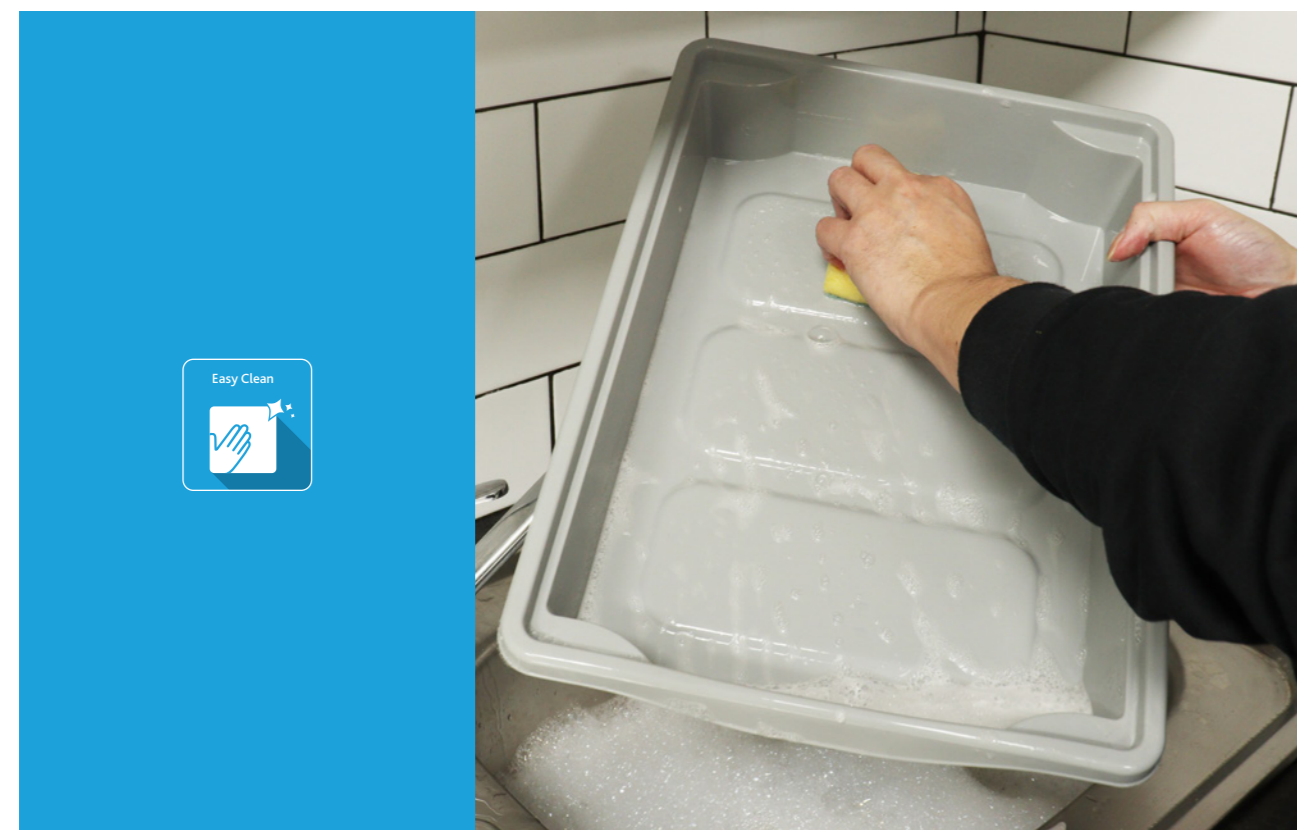

Our trays are manufactured to last but when they do reach the end of their life, they can be recycled and should not be sent to landfill.

## Cleaning & Care Instruction

If your tray gets dirty, use a cloth or sponge and clean using a nonabrasive, all-purpose cleaner (Washing up Liquid works well) with warm water. This will avoid scratching the tray. Rinse with clean water and dry with a clean, soft cloth.

For stubborn stains, you can use baking soda and water. - Baking soda paste needs to be mixed with water. Apply directly to the discoloured areas of the plastic tray. Allow the object to sit for twenty to thirty mins before applying with a moist cloth to the container then rinse and dry.

Avoid using household bleach as this is corrosive to plastic and will damage the integrity of the tray.

*Our customers are always at the heart of our business. Our dedication and commitment to service and support is the reason we are recognised as a leader in our field.*
