SMART MATERNITY + POSTPARTUM
SUPPORT WEAR

Body After Baby provides active moms with the next generation of “smart” maternity, postpartum and C-section support belly bands, garments and post-pregnancy shapewear.

At the heart of every Body After Baby product is our unique MicroNet® fabric - durable enough to handle serious stretch and moisture, yet seamless and comfortable enough to wear all day, even under form-fitting clothes while retaining shape.

Uniquely designed for bodies in motion, whether you are pregnant and looking to relieve back pain, an active new mom looking to recover quickly so you can take care of your new baby, or an active working mom or devoted yogi ready to get back to pre-baby activities, Body After Baby has a support product for you. Our mission is to help active moms feel better and recover in comfort...Because when you **FEEL** good, you **LOOK** good!

What A Relief

The Motherload has helped me with all the aches and pains during my pregnancy, and I'm 8 mos. along now and feel great. When my lower back starts to become uncomfortable, it's such a relief to strap on the Motherload to help support my back and belly. I'm not sure what I would do without it, what a great product! -- Alexis, Dallas, TX

Just What I Needed

With a hectic schedule of nursing and running around, I needed the right support to help my recovery while being so busy. The Angelica really held me in, helping me feel stable and keep my insides where they should be until I healed all the way. The soft breathable fabric is so comfortable I hardly notice that I'd been wearing it all day. I love this garment! -- Katie, Seattle, WA

I Absolutely Love My Sienna

The first week after I gave birth I was very swollen. I put on the Sienna when I came home and it was super comfortable. It held my stomach in and gave me the right support. There was no folding over at the incision site and it didn't show under my clothes. I also give the garment credit for my scar healing flatter than with my first C-section. -- Maria, Grayslake, Ill

In My Skinny Jeans Again

At 4 months post baby I had lost my baby weight but not everything was in the same place or as tight. I've tried Spanx, but I was constantly adjusting and fixing the fit. I was given the Leilani as a gift and couldn't believe how much better supported and comfortable I was and it hid my muffin top, now I can finally fit into my skinny jeans! -- Jane, Huntington Beach, CA

The Motherload is designed for active pregnant women that need to relieve back, hip and abdominal pain and to reduce sciatica. Unlike other pregnancy support bands made from simple elastic or foam, the Motherload supports without extra pressure on the lower belly. Soft, breathable moisture wicking materials move synergistically with a mom's growing belly, whether running around town, or getting into a pregnancy safe yoga move. Plus a sleek design means you can wear it under all your clothes, without the whole world knowing.

SUPPORT BENEFITS

- Relieves lower back and sciatic pain
- Relieves pressure on the abdomen, hips, and pelvis
- Lightweight and breathable materials
- Improves posture to carry more comfortably
- Reduces pressure on your bladder

DESIGN FEATURES

- Anatomical design for functionality and comfort
- Breathable EVA molded back panel and front band
- Adjustable independent tension support straps
- 12" of adjustment to accommodate growth
- Lightweight and breathable materials

Style: **ML2**

Colors: ☐

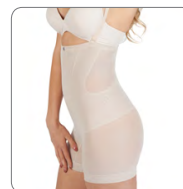

With a 2-piece design The Motherload provides flexibility to accommodate all body types and sizes, keeping moms comfortable and well supported. May be worn under or over your clothing depending on preference.

SIZE	UNDER BELLY	PRE PREG PANTS
S	22-32	0-4
M	32-42	6-10
L	42-52	12-16

Angelica POSTPARTUM RECOVERY

The Angelica is for postpartum moms that have had a traditional delivery and have the common “weak, stretched, and loose” belly and mid-section. Designed to reduce pain and discomfort and speed recovery so moms can regain the strength needed to actively focus on their new baby. No other postpartum products focus solely on the recovery process like the Angelica. We believe a comfortable, supported mom is a better mom so start the recovery process today and recover in comfort.

SUPPORT BENEFITS

- Stabilizes and supports loose and weak muscles
- Lower back and hip support for improved posture
- Promotes circulation and reduces swelling
- Improves comfort while nursing
- Discreet and hidden under clothing

DESIGN FEATURES

- Lightweight and breathable MicroNet fabric
- Seamless Anatomical Support Panels (ASP)
- Full Abdominal and core support
- Antimicrobial cotton lined crotch
- Adjustable and detachable shoulder straps

Style: VD1

Designed to start wearing within a few days following delivery. For added convenience our pre-pregnancy pant reference can be used prior to delivery. If you have gained more than 35lbs. please add 1 size. Do not use this style while pregnant.

SIZE	WAIST	HIPS	PRE PREG PANTS
1	25-26	35-36	0
2	27-29	37-39	2-4
3	30-32	40-42	6-8
4	33-35	43-45	10-12
5	36-39	46-49	14-16
6	40-43	50-53	16-18

Sienna C-SECTION RECOVERY

Specifically designed for C-section recovery, the Sienna helps C-section moms recover faster and more comfortably while reducing scarring so they can feel stable and perform the daily activities of motherhood. Unlike postpartum belly bands or C-section panties, the Sienna supports the C-section incision site as well as the areas impacted by pregnancy including the hips, and lower back. Whether you've had a planned or unexpected C-section, let your recovery begin and end in comfort with the Sienna.

SUPPORT BENEFITS

- Stabilizes and protects C-section incision
- Promotes incision healing and reduces scars
- Helps reduce swelling and bloating
- Hip and lower back support
- Gives moms confidence

DESIGN FEATURES

- Lightweight and breathable MicroNet fabric
- Seamless support panel in the lower abdomen
- Anatomical Support Panels (ASP)
- Side zipper for easy on/off
- Antimicrobial cotton lined crotch

Leilani POST-PREGNANCY SHAPEWEAR

Is it time to get back into your skinny jeans? The Leilani is for active moms whether at the gym, work or on-the-go that have postpartum healed and lost the majority of pregnancy weight, now focused on losing serious inches and shaping up. Unlike bulky post-pregnancy bands and wraps, the Leilani can be worn discreetly under fitted clothing and shapes all the body parts impacted by pregnancy including the lower belly, hips, buttocks and thighs.

Begin wearing 6-8 weeks post-pregnancy and shape up with confidence and style.

SUPPORT BENEFITS

- Shapes, Tones, and Firms
- Starts working immediately to improve your figure
- Assists in losing those final inches
- Discreet and hidden under clothing
- Open crotch for convenience

DESIGN FEATURES

- Extended Support Panels (ASP) for contouring
- Lightweight and breathable MicroNet Fabric
- Convenient open-crotch design
- Adjustable shoulder straps
- Silicone Leg gripper

Style: XW1

Colors:  

Designed to be worn as a 2nd stage body shaping garment, typical wear starting at 6-8 weeks following delivery. The Leilani should fit snug and feel firmly compressive in the targeted areas while providing lift and maintaining comfort. Not intended for immediate use following delivery.
