TROUBLESHOOTING / FAQ

My hotkey commands don't work or stopped working.
  1- Make sure keyboard is plugged into dedicated mouse/keyboard ports.
  2- Try using Scroll Lock as hotkey trigger, if not, then Right-CTRL.

My keyboard does not have a Scroll Lock button.
  1- Use Right-CTRL, Right-CTRL, 1 or 2 to confirm trigger isn't already set to Scroll Lock.
  2- Press and hold yellow switch button for 15 seconds. If KVM beeps, turn off and back on. Hotkey trigger will now be set to Right-CTRL.

I accidentally turned Passthrough Mode off and keyboard no longer functions.
  1- Use a basic 104-Key keyboard to turn Passthrough Mode back on.
  2- We recommend keeping Passthrough Mode on at all times unless using Linux.
