Author

I would like to introduce myself and offer you my professional services with over ten years' experience. I am confident upon reviewing my resume, you will find I will be an asset to your company.

My experience in user focused research and writing allows me to focus on the reader's pain points and break down technical writing into language the reader can digest. My background in graphic and visual designs allows me to enhance my writing with illustration, info graphics, photography, and data visualization.

I excel in incorporating my expertise into a company's well-defined processes. My background also includes working with startups to create a user-focused approach from scratch. I enjoy meeting with companies to discuss their expectations on consulting how that will occur.

As you will see, it is through my diverse industry and project roles I am well versed in the project life cycle. No matter which role I am placed in, I can immediately step in, analyze the project's need and begin productivity on day one. It has been my pleasure to work on a variety of project in a fast-paced environment, that enables me to draw on my experience for each company I work with.

My strongest assets at your disposal are:

1. Author of 11 books in four series. Memoir, Motivational, Poetry, and
2. Children's book for autistic special needs.
3. UX and IT Consultant
4. Jira and Confluence Integration and Trainer
5. Project Manager | Product Owner
6. Director of User Experience
7. Former Certified Scrum Product Owner and Certified Scrum Master.
8. MS Human Computer Interaction. BFA Graphic Design.
9. User focused UX Design Researcher and Designer.
10. Instructional Design and Writing
11. UI Design
12. UX Business/Design Ops Researcher

It would honor me to utilize my talents for your company. Thank you for your time and consideration.

Sincerely,

Carin Camen
