DO-IT-YOURSELF

HOW DO I WEAR HAIRLOCKS PLAYPONY HAIR EXTENSIONS?

HairLocks PlayPony are completely do-it-yourself and can be applied in 30 seconds or less! You simply take the HairLocks PlayPony and secure through, directly over, or around the base of your ponytail or top knot.

HOW-TO TIPS

HAIRLOCKS PLAYPONY can be worn in a long, layered, braided, twisted, tied, or wrapped up into a messy bun and can be doubled up or divided between 2 ponytails or pigtails depending on the look you desire.

CREATE YOUR FOUNDATION:

- Your own hair can be worn wet or dry.
- For a sleek look we recommend pulling your hair back while it is damp.
- Add high, mid, low, or side top knot, crown knot or ponytail.
- Foundation placement can be on or off center or split down between two sides.
- Secure with elastic bands, scrunchies, hair ties and bobbie pins if needed.

THE PlayPony - LONG LAYERED STYLEROD® TECHNOLOGY

- I. Start off with your desired foundation.
- II. Put your hair up using a hair tie.
- III. Take the tip of THE PLAYPONY and push through the base of your top knot or ponytail.
- IV. This is where you can adjust the length. For a shorter look, pull it through more; For longer, pull it through less.
- V. Pull through the base, wrap around your ponytail or top knot and push the tip into the base to secure and hide the tip.
- VI. Take the rest of the hair piece and blend in with your own hair. Be sure to tuck the tip of the StyleRod® into your base for a seamless look.
- VII. Mold your StyleRod® with your hands once you've wrapped your PLAYPONY to adjust the height and shape of your style.

MESSY BUN: To achieve a messy full bun wrap loosely around your own top knot OR wrap and blend with your own ponytail.

PONYTAIL: To get a long ponytail push tip through the top of the base through to the back and modify length. Collect your own ponytail with PLAYPONY. Partially wrap the hairpiece once or a couple of times to secure around your own ponytail foundation. Flip your hairpiece over and back to blend and fine-tune ponytail height. Be sure to tuck the end of the bendable spine along the length of your ponytail for a smooth look from top to bottom.

HALF UP HALF DOWN: Use THE PLAYPONY to create extra layers of voluminous hair. Push tip through your base and adjust the length. Gather your own ponytail with PLAYPONY hair piece. Partially wrap the extension once or twice to secure around your ponytail foundation. Flip your hair extension over your own hair to blend and adjust ponytail height.

HAIR CARE

CARING FOR YOUR PLAYPONY

We suggest using a mild shampoo (sulfate-free ones work best) to wash your hair piece. You do not need to wash it as frequently as your own hair; just when you feel it needs it.

Wash in cool water and immerse your hairpiece. Let soak for a few minutes. Use fingers to gently clean and rinse in cool water until all shampoo is removed.

Remove hair extension and gently comb through any tangles with your fingers. Blot dry in a towel and gently shake. Let your hair piece air dry. Do not brush or style your hair piece when it's wet; instead, wait until it is completely dry. Once dry, style as desired.

We recommend that you brush out your HairLocks PlayPony hair piece after each use and place in your PlayPony satin bag until your next use keeping them tangle free and in perfect condition.

ARE PLAYPONY HAIR PIECES HEAT FRIENDLY?

Yes, our hair pieces are made of the world's highest quality heat friendly fiber.
(RECOMMENDED HEAT FOR STYLING TOOLS 300° F)
