<b>CARE &amp; MAINTENANCE</b>	Regular maintenance — Vacuum fabric regularly to remove crumbs, dust and dirt to avoid buildup. Spills — Soak up spills as quickly as possible using a dry absorbent cloth. Persistent stains — Most stains can be cleaned using a damp cloth. For persistent stains use a warm soapy water solution. Moderate scrubbing with a soft bristle brush and soapy solution will help loosen soiling from the fabric surface. It is very important to remove all soap residue with clean water. Fusion can also be cleaned with a bleach solution (1 part bleach solution 10 parts water) rinse with clean water & dry with clean towel to remove all chemical residue. Do not use solvent based cleaners. Failure to follow cleaning instructions may permanently stain and reduce the life of the fabric.
