

ExactPax™ LONGEVITY

The Longevity ExactPax™ provide the ultimate support for cellular health, the cornerstone to extending your health and lifespan. This ExactPax™ includes unique products such as **Spermidine**, **Sulforaphane**, **MitoPrime®**, **ac-11® Cat's Claw**, **NMN**, **TMG**, and **several polyphenols**. It is a mitochondrial and antioxidant powerhouse that promotes longevity and leaves you feeling sharper, lighter, and more resilient. It assists in offloading senescent cells; promotes cell survival; and stimulates repair mechanisms among all cells via high-grade autophagy; DNA repair; protections of the epigenome; and methylation support.

DEMOGRAPHIC & CLINICAL APPLICATIONS

MEN & WOMEN

PATIENTS REQUIRING

- Anti-Aging Protocols
- High Levels of Physical Activity
- Mitochondrial Function
- Epigenetic Regulation & Gene Expression
- Cardiovascular Support

BENEFITS

Promotes Longevity & Cellular Renewal

Supports Stamina/Endurance & Protein Synthesis

Supports Heart Health & Mitochondrial Function

Maintains Lipid metabolism & Energy Production

ABOUT ExactPax™

Personalized Packets Based on Specific Health Goals

Based on the gracious input and ordering patterns of thousands of Infiniwell physicians, we created the ExactPax™ line. Each ExactPax™ box includes a *one-month supply of convenient, individual daily supplement packets*, compiled from the most popular bundles purchased for each identified health goal.

Convenient Reordering

Forget messy bottles. Reordering is automated, which makes the convenience night & day in comparison to managing bottles.

Eliminated Guesswork

Simplify your patients' daily health routine. Patients will no longer need to remember when, how much, or what to take.

Best Practice Protocols

Keep your patients up-to-date with the best & latest practice protocols being implemented by specialists.

Better Compliance

Having better patient compliance equates to better results for both your patients and your practice.

LONGEVITY vs. LONGEVITY+

1x Senolytic

SUPPLEMENT FACTS

Serving Size: 1 Capsule | Servings Per Container: 30

	Amount Per Serving	%DV
Fisetin (<i>Rhus succedanea</i>) (Stem)	100 mg	*
Querciten (<i>Sophora japonica</i>) (Bud)	400 mg	*
Resveratrol (<i>Polygonum cuspidatum</i> Sieb.) (Root)	50 mg	*
Pterostilbene (<i>Pterocarpus marsupium</i>) (Wood)	50 mg	*
Curcumin (Turmeric Root)	50 mg	*

* Daily Value Not Established

Other Ingredients: Vegetable Capsule (Hypromellose, Titanium Dioxide)

2x Senescent Regulator

SUPPLEMENT FACTS

Serving Size: 2 Capsules | Servings Per Container: 30

	Amount Per Serving	%DV
TurmiPure Gold® Turmeric Extract (<i>Curcuma longa</i>) (rhizome) (min. 30% curcuminoids)	300 mg	*
CurcuPrime® Tetrahydrocurcumin	200 mg	*
Luteolin	200 mg	*
Resveratrol (<i>Polygonum cuspidatum</i> Sieb.) (Root)	50 mg	*
Pterostilbene (<i>Pterocarpus marsupium</i>) (Wood)	50 mg	*

* Daily Value Not Established

Other Ingredients: Vegetable Capsule (Hypromellose)

BOTH INCLUDE

2x DNA Prime

SUPPLEMENT FACTS

Serving Size: 2 Capsules | Servings Per Container: 30

	Amount Per Serving	%DV
ac-11® Cat's Claw Aqueous Extract (<i>Uncaria tomentosa</i>) (bark) (standardized to 8% carboxy alkyl esters, CAEs)	700 mg	*
Activated BroccoRaphanin® (Broccoli concentrate from seed and myrosinase enzyme)	300 mg	*
Sulforaphane Glucosinolate (as Glucoraphanin)	30 mg	*
Buckwheat Peptides 20:1	200 mg	*
2-HOBA (Hobamine®)	100 mg	*
L-Ergothioneine (as MitoPrime®)	10 mg	*

* Daily Value Not Established

Other Ingredients: Microcrystalline Cellulose, Magnesium Stearate (Vegetable), Silica, Vegetable Capsule (Hypromellose)

3x Enhance

SUPPLEMENT FACTS

Serving Size: 3 Capsules | Servings Per Container: 30

	Amount Per Serving	%DV
Arginine Alpha-Ketoglutarate	500 mg	*
Trimethylglycine (TMG) (as Betaine Anhydrous)	500 mg	*
Bergamont Orange Extract (<i>Citrus bergamia</i>) (Fruit) (Bergamonte®) (38% Bergamot Polyphenolic Fraction* comprised of Neohesperidin, Naringin, Neoeocitricin, Brutierifin and Melitidin)	250 mg	*
Epigallocatechin Gallate (EGCG) (from Green Tea 98% Extract)	100 mg	*
Taxifolin (from Dihydroquercetin)	10 mg	*
Spermidine	10 mg	*

* Daily Value Not Established

Other Ingredients: Vegetable Capsule (Hypromellose)

2x NMN

SUPPLEMENT FACTS

Serving Size: 2 Capsules | Servings Per Container: 30

	Amount Per Serving	%DV
Nicotinamide Mononucleotide	200 mg	*
Resveratrol (<i>Polygonum cuspidatum</i> Sieb.) (Root)	50 mg	*
Pterostilbene (<i>Pterocarpus marsupium</i>) (Wood)	50 mg	*

* Daily Value Not Established

Other Ingredients: Vegetable Capsule (Hypromellose, Titanium Dioxide)

SUGGESTED USE

Take 1 packet daily, in the morning on an empty stomach at least 1 hour before a meal, or as directed by your healthcare practitioner.

CONTENTS

NMN

NMN, or nicotinamide mononucleotide, plays a vital role in cellular energy production by supporting NAD levels. By enhancing NAD, NMN aids in various cellular processes, including DNA repair and efficient energy metabolism. Trans-resveratrol, a potent antioxidant found in red grapes, supports healthy aging by promoting cellular health and combating oxidative stress. Pterostilbene, a compound naturally found in blueberries, works synergistically with resveratrol to further enhance the body's defense against the aging process.

- Supports NAD+ production
- Supports mTOR & AMPK activity
- Promotes cellular health & rejuvenation
- Aids in inhibiting cellular senescent formation via SIRT1 activation

Senolytic

Senolytic serves to offer cutting edge support in the area of autophagy and cellular senescence with key compounds, including fisetin, quercetin, pterostilbene, resveratrol and curcumin, all of which have been shown to support healthy metabolism of senescent cells. Promotes healthy cellular function

- Promotes healthy cellular function
- Aids in the ongoing/continual cellular renewal via autophagy
- Supports a healthy inflammatory response
- Encourages the clearance of senescent cells (AKA 'zombie cells')

Senescent Regulator

Senescent Regulator, which contains key compounds including pterostilbene, resveratrol, luteolin, and curcumin (with 24X the bioavailability), serves to offer next level, cutting-edge longevity support by specifically targeting autophagy. Autophagy is a cellular process that is essential for maintaining cellular homeostasis and preventing age-related diseases. The process involves the degradation and recycling of damaged proteins and organelles, which helps to prevent the accumulation of cellular waste and the formation of senescent cells, often referred to as Zombie Cells. It accomplishes this through five main mechanisms: clearance of damaged organelles, regulation of reactive oxygen species (ROS), removal of misfolded proteins, regulation of cellular metabolism and prevention of genomic instability.

- Supports a healthy inflammatory response
- Promotes healthy cellular function and rejuvenation
- Aids supporting key antioxidant pathways
- Encourages the inhibition of mTOR & activation of AMPK

DNA Prime

As we age, these cellular components naturally decline, making it important to support them through various means, including targeted nutritional supplementation. DNA Prime, which contains **ac-11® Cat's Claw Aqueous Extract, Activated BroccoRaphanin®, Sulforaphane Glucosinolate, Buckwheat Peptides, 2-HOBA**, and **MitoPrime®** (L-ergothioneine), serves as a promising way to support the health of our telomeres, DNA, and mitochondria, and promote healthy aging overall.

- Supports telomere length and telomerase activity
- Facilitates mitochondrial proliferation & optimum function
- Promotes the body's innate ability to repair DNA
- Cellular protection against oxidative stress

ac-11® is a Registered Trademark of Optigenex Inc. and protected by US Patent Nos.: 10,098,922, 7,579,023, 6,964,784 and 7,595,064.

Enhance

Enhance is a cutting-edge dietary supplement formulated to support longevity and promote healthy aging. As we age, our cells undergo transformations that impact our well-being and lifespan including diminished mitochondrial function, reduced autophagy, and decreased cellular renewal. Enhance leverages a precise blend of six key ingredients: **Arginine Alpha-Ketoglutarate** (AAKG), **Trimethylglycine** (TMG), **Bergamot Orange Extract**, **Epigallocatechin Gallate** (EGCG), **Taxifolin**, and **Spermidine**.

- Supports stamina and endurance
- Promotes longevity through cellular renewal and autophagy
- Promotion of Nft2 antioxidant pathways
- Maintains healthy lipid and blood sugar metabolism

WHEN TO RECOMMEND (+)

Generally speaking the patient who is in overall good health and looking to optimize their health span and proactively set the stage for healthy aging and longevity would be the prime person to take the **Longevity ExactPax™**.

When it comes to those patients who have a similar longevity goal but who struggle with more health challenges and perhaps have more complex physiological challenges, **Longevity+ ExactPax™** is the more appropriate option.
