

ExactPax™ REPAIR & RECOVERY

Repair & Recovery ExactPax™ is the ultimate combination to create an optimal environment for the body's natural processes associated with muscle building, joint recovery, and tissue repair. Its bioactive and antioxidant properties support rapid recovery, muscle growth via myostatin inhibition, and immunomodulatory actions. Plus, it promotes the synthesis of nitric oxide, helping to increase blood flow and stress tolerance, while reducing muscle soreness; all leading to more efficient recovery, exercise performance, and endurance.

DEMOGRAPHIC & CLINICAL APPLICATIONS

MEN & WOMEN

PATIENTS REQUIRING

- Muscle Growth & Strength Gains
- Muscle Recovery Support
- Improved Endurance/Stamina During Workouts
- Reduced Muscle Soreness from Regular Exercise
- Lean Muscle Mass Support from Caloric Restriction or Aging

BENEFITS

Muscle Protein Synthesis & Recovery

Strength Gains & Mitochondrial Neogenesis

Mucosal Barrier Support & AMPK Activation

Stamina, Endurance & NO Production

Body Composition Support & Cortisol Regulation

Endothelial NO Production & Vascular Relaxation

ABOUT ExactPax™

Personalized Packets Based on Specific Health Goals

Based on the gracious input and ordering patterns of thousands of Infiniwell physicians, we created the ExactPax™ line. Each ExactPax™ box includes a *one-month supply of convenient, individual daily supplement packets*, compiled from the most popular bundles purchased for each identified health goal.

Convenient Reordering

Forget messy bottles. Reordering is automated, which makes the convenience night & day in comparison to managing bottles.

Eliminated Guesswork

Simplify your patients' daily health routine. Patients will no longer need to remember when, how much, or what to take.

Best Practice Protocols

Keep your patients up-to-date with the best & latest practice protocols being implemented by specialists.

Better Compliance

Having better patient compliance equates to better results for both your patients and your practice.

REPAIR & RECOVERY vs. REPAIR & RECOVERY+

2x BPC-157 Rapid

SUPPLEMENT FACTS		
Serving Size: 2 Capsules Servings Per Container: 30		
	Amount Per Serving	%DV
Body Protective Compound (as BPC-157 Arginate Salt)	500 mcg	*
Salcaprozate Sodium (SNAC)	3 mg	*

* Daily Value Not Established

Other Ingredients: Rice Powder, Microcrystalline Cellulose, Vegetable Capsule (Hypromellose)

2x BPC-157 Rapid Pro

SUPPLEMENT FACTS		
Serving Size: 2 Capsules Servings Per Container: 30		
	Amount Per Serving	%DV
Body Protective Compound (as BPC-157 Arginate Salt)	1000 mcg	*
Salcaprozate Sodium (SNAC)	6 mg	*

* Daily Value Not Established

Other Ingredients: Rice Powder, Microcrystalline Cellulose, Vegetable Capsule (Hypromellose)

BOTH INCLUDE

3x Strength

SUPPLEMENT FACTS		
Serving Size: 3 Capsules Servings Per Container: 30		
	Amount Per Serving	%DV
Calcium (from Calcium β -Hydroxy β -Methylbutyrate Monohydrate)	240 mg	18%
myHMB [®] (β -Hydroxy β -Methylbutyrate) (from Calcium β -Hydroxy β -Methylbutyrate Monohydrate)	2,000 mg	*
Epicatchin (Green Tea Leaf Extract)	400 mg	*
PurpleForce [®] Purple Tea (Camellia Sinensis) Leaf Extract (3% GHG)	100 mg	*
AstraGin [®] (Astragalus membranaceus and Panax notoginseng) Root Extracts	50 mg	*
Senactiv [®] [Panax notoginseng (root) and Rosa roxburghii (fruit)] extracts (Astragalus membranaceus and Panax notoginseng) Root Extracts	50 mg	*

* Daily Value Not Established

Other Ingredients: Rice Powder, Microcrystalline Cellulose, Vegetable Capsule (Hypromellose)

2x Ashwagandha

SUPPLEMENT FACTS		
Serving Size: 2 Capsules Servings Per Container: 30		
	Amount Per Serving	%DV
Ashwagandha	1300 mg	*
Black Pepper Extract	10 mg	*

* Daily Value Not Established

Other Ingredients: Vegetable Capsule (Hypromellose)

GLUTEN FREE

SOY FREE

DAIRY FREE

NON GMO

SUGGESTED USE

Take 1 packet daily, in the morning on an empty stomach at least 1 hour before a meal, or as directed by your healthcare practitioner.

CONTENTS

BPC-157

BPC-157 describes a partial sequence of amino acids naturally occurring in human gastric juices. BPC-157 works **with the body** to support muscles, joint health, digestion and the normal function of the gut-brain axis. This 15-amino acid fragment is also frequently referred to as 'Body Protection Compound' (BPC). The rapid release of this product is generally applied to those cases where support is needed in the upper gastrointestinal region as well as when more acute needs arise with regard to joint support. In order to support optimal absorption of BPC-157, these products also include Salcaprozate Sodium (SNAC), which serves to elevate this formula's efficacy and is unique to the InfinitiWell suite of BPC products.

- Supports an optimal environment for the body's natural ability to repair tissue and recovery processes.
- Promotes healthy inflammation response for optimal tissue healing.
- Supports joint health and function by maintaining connective tissue integrity

Strength

Strength stands as an extraordinary nutritional supplement forged with meticulous precision to offer unparalleled support for the intricate processes of muscle protein synthesis; strength gains derived from resistance training; unwavering stamina and endurance; and the intricate intricacies of body composition and lipid metabolism. This avant-garde creation masterfully captures the synergistic essence of an amalgamation of potent ingredients, namely **Epicatechin**, **myHMB**[®], **PurpleForce**[®] **Purple Tea**, **Senactiv**[®], and **AstraGin**[®]. Together, these exceptional components harmonize to unleash your untapped reservoirs of potential within the vast domain of fitness and physical performance.

- Supports muscle recovery & repair processes and helps enhance muscle strength and power.
- Supports the maintenance of lean muscle mass during exercise or periods of physical activity.
- Promotes healthy blood flow and nutrient delivery to muscles for optimal performance.

Ashwagandha

Ashwagandha is a key addition to this ExactPax as it contains compounds with antioxidant properties, such as withanolides and has the potential to contribute to collagen synthesis. When it comes to its antioxidant capacity, this helps protect cells from oxidative stress induced tissue damage. Oxidative stress has been implicated in joint and soft tissue injuries as it can trigger and sustain chronic inflammation, which plays a significant role in tissue damage by activating pro-inflammatory signaling pathways and promoting the release of inflammatory mediators. Ashwagandha may also promote collagen synthesis through a couple of potential mechanisms. First, it may modulate the expression and activity of growth factors involved in collagen production, such as transforming growth factor-beta (TGF- β). Second, ashwagandha might enhance the activity of collagen-related enzymes responsible for stabilizing and cross-linking collagen molecules. Finally, ashwagandha can mitigate excessive spikes in cortisol which is known to inhibit collagen synthesis and activate pro-inflammatory pathways as well.

- Supports healthy antioxidant activity to protect against exercise-induced oxidative stress.
- Helps to optimize nutrient absorption and utilization for enhanced exercise benefits.

WHEN TO RECOMMEND (+)

Repair & Recovery ExactPax[™] is designed for patients who are overall in good health and who strive to optimize their body's ability to recover from regular exercise

Repair & Recovery+ ExactPax[™] is designed for patients who have a similar physical activity goals but who struggle with more health challenges and who perhaps have more complex physiological challenges.
