

HRT Cream Base

Catalog Number B4518

HRT Cream Base is a heavy cream that is formulated from natural and paraben-free ingredients. The product is specifically designed for deeper skin penetration for male and female hormone replacement therapies, with stability and potency for all hormone APIs.

Why Choose HRT Cream Base?

- Sustained skin penetration and absorption
- Paraben-free, fragrance-free and dye-free
- Natural ingredients & natural preservatives
- Certified hypoallergenic
- Cosmetically elegant
- Ideal for topical or vaginal preparations
- Stability/potency of 180 days for common hormone APIs

HRT Cream Base Properties:

pH	7.5
