

Bag Installation / Removal

1. To open the Diaper Champ™ Deluxe, press the center release button inward. Use your fingers to raise the top cover.

2. Lift the top cover allowing the bagholder to remain on the pail and ready for a bag to be inserted.

3. Using a Diaper Champ™ Refill or any 13 gallon trash bag, push the bag through the center of the bagholder down to the bottom of the pail.

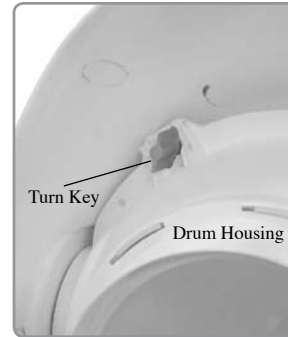

4. Make sure that the bag is flat on the bagholder surface as shown and that the top of the bag is tucked down around the outside of the bagholder. Also make sure that no part of the top of the bag extends outside the pail before closing the cover assembly. This will ensure a good seal between the two components.

5. To remove a full bag, depress the center release button and lift both the top cover and bagholder. Twist the top of the bag as shown and lift it out slowly to avoid any tears. Always use the foot at the front of the Diaper Champ™ Deluxe when opening so that the unit won't tip over.

Diaper Champ™ Refill is sold separately. (300 diaper capacity when using new born sized infant diapers.)

Disassembly / Cleaning

1. To remove the lower drum housing, find the four turn keys in the corners of the top cover assembly. Twist the turn keys and lift away the drum housing.

2. Use warm water and mild soap to clean and disinfect the seal area and inside the barrel of your Diaper Champ™ Deluxe.

Read all instructions BEFORE assembly and USE of product.
KEEP INSTRUCTIONS FOR FUTURE USE.
