ABOUT CORE PRODUCTS

Core Products International, Inc. is an FDA registered Medical Device manufacturer. We have been manufacturing high quality orthopedic and comfort care products since 1988 while serving a variety of healthcare markets. Our product line includes orthopedic supports and pillows, hot and cold therapy products, professional massage products and a variety of other comfort care solutions. We also have extensive experience in contract manufacturing mainly within the area of industrial sewing. We are proud of our friendly and responsive customer service and strive to make doing business with us an exceptional experience.
