### ON YOUR BACK

Place the pillow on the bed with the wedge pointing toward the feet. Lie down on the pillow with the wedge supporting the upper back, the cervical contour supporting the neck, and the head resting comfortably in the contoured head rest.

### ON YOUR SIDE

Flip the pillow over, so that the wedge is at the top of the pillow facing the headboard. Place shoulder against the contoured area of the pillow.

### WHY CHOOSE THE THERAPEUTICA PILLOW?

The Therapeutica® Travel Pillow is designed to offer the same features as our full-size Therapeutica sleeping pillow, but in a convenient, travel size. Created by an ergonomic designer, along with a doctor of chiropractic, the travel pillow is best for those who sleep on their back. However, it can be flipped over to accommodate side sleeping.

### MOLDED FOAM

The unique nontoxic, nonallergenic, molded foam design includes three distinct areas to help reduce neck pain and stiffness. The gentle incline of the wedge extension supports the upper spine, the firm, cervical contour supports the neck, and the contoured head rest, with airflow channels, helps keep the head level.

### SIZING IS IMPORTANT

Proper spinal alignment is key to healthy sleeping. Selecting a properly sized pillow that accommodates shoulder length will increase comfort while sleeping! To properly measure yourself for our Therapeutica Sleeping Pillows, use our exclusive measuring guide.
