- Helps increase muscle elasticity for warm-up routines
- Trusted by Equine professionals worldwide
- Variable speeds provide soothing massage or more invigorating massage
- Provides the luxury of a full body massage without the recurring cost of massage therapists

Available From:

### SOOTHING MASSAGE

The Equisports™ Massager with variable speed provides a deep, penetrating massage with the twist of a switch. Help reduce pain, muscle tension, and stiffness by adjusting massage intensity from a soft, gentle speed to a deep, invigorating speed. Ideal for use on ponies, donkeys, horses, and mules.

### OVERALL PERFORMANCE BOOST

If you would like to improve your equine's overall performance and quality of life, you can count on the Equisports Massager with variable speed as a key tool in your regular massage therapy regimen. This massager delivers an invigorating 500-4600 rpm orbital massaging action. This product is built with a cast aluminum construction with a black powder coat finish that looks great and resists abrasions, ensuring years of use.

We know you expect your equine athletes to perform their best. The Equisports Massager provides a soothing, deep penetrating massage that increases blood flow to assist in rejuvenation of sore, tired, or tense muscles. If your equine needs a performance boost, try adding the Equisports Massager to their warm-up routine to help increase elasticity of the muscles.
