### PROMOTES SPINAL HEALTH

So many daily activities affect our posture, placing the head and neck in a detrimental forward head position. This can be attributed to looking down at handheld devices, sleeping with the head elevated excessively, poor posture, or an acute injury such as whiplash. Using the Apex Premium, under the direction of a health care professional, counteracts forward head posture to help relieve headaches and neck pain associated with whiplash injury, tech neck, and other neck injuries.

### UNIQUE WEDGE EXTENSION

The contoured shape with wedge extension provides firm support to place the neck in a proper position to help reestablish a diminished cervical curve as a result of forward head posture. The unique wedge extension provides support to the upper thoracic spine for comfort and also allows the shoulders to drop, stretching the chest and neck muscles. Opening the chest in this manner promotes breathing and facilitates relaxation.

The Apex Cervical Orthosis Premium™ is an effective tool to assist the health care professional in restoring a patient's proper cervical lordosis; use daily under the supervision of a health care professional.

### SPECIFICATIONS

**Product Selection:** Apex Cervical Orthosis™ Premium, Charcoal TRC-4993

**Product Weight:** .25 lbs

**Dimensions:** 10" x 7.375" x 4.625"

**Materials:** Polyurethane foam

**Case Quantity:** 18

**Case Dimensions:** 15" x 14" x 23"

**Case Weight:** 7 lbs

**Latex:** This product is not made with natural rubber latex

**Country of Origin:** Made in USA

California Residents Only:

### PROMOTES SPINAL HEALTH

Using the Apex Premium, under the direction of a health care professional, counteracts forward head posture to help relieve headaches and neck pain associated with whiplash injury, tech neck, and other neck injuries.

The contoured shape with wedge extension provides firm support to place the neck in a proper position to help reestablish a diminished cervical curve as a result of forward head posture. The unique wedge extension provides support to the upper thoracic spine for comfort and also allows the shoulders to drop, stretching the chest and neck muscles. Opening the chest in this manner promotes breathing and facilitates relaxation.

### MOIST HEAT THERAPY

The MicroBeads® Moist Heat Pack sits in a channel at the apex of the wedge, providing targeted moist heat therapy to the cervical tissue. Studies indicate increasing the temperature of the tissue to be stretched improves elasticity of muscles and ligaments, extending range of motion.<sup>1,2</sup>

Made with a plush fabric cover, the MicroBeads Moist Heat Pack is soft to the touch and gentle on the skin. The microbeads adsorb moisture from the air and release it when heated. Simply warm the pack in the microwave; the pack will maintain therapeutic temperature for 20 minutes. MicroBeads do not support the growth of bacteria or contain common allergens like herbal or grain based packs. Reusable. Extra or replacement packs can be purchased individually.
