

CORE® STRESS WEDGE FOAM SEATING CUSHION

- Helps reduce strain on spine and eases lower back pain
- Encourages proper posture and alignment while sitting
- Ease pain related to hip impingement
- Firm foam; incline from 7/8" to 3" height
- Slightly tilts the pelvis, helping the spine maintain its correct curvature
- Helps increase core stability

Available From:

COMFORTABLE SPINE & BACK SUPPORT

The foam Stress Wedge provides an economical option to help improve posture and ease lower back and/or hip pain while sitting. The gentle incline helps restore and maintain correct ergonomic seating by increasing the angle of the hips, helping increase core stability.

Firm foam construction without cover. Gentle incline from 7/8 to 3 inches (2cm to 7 1/2cm) height.

Use to help relieve stress on the lower back and hips by placing the wedge with the 3" rise toward the back of the seating surface. The cushion is lightweight and easy to transfer. It can be used in virtually any location including work, home, in the car, or on a plane.
