- Full elastic back reduces irritation and potential for blistering
- Bilateral design fits right or left ankle

Available From:

### THE BRACE THAT GIVES YOU INNER STRENGTH

The Swede-O® Inner Lok 8® features a patented internal figure eight strapping system which assures proper strap placement and simulates professional taping.

The quick release strap allows you to easily remove the brace by loosening the internal strapping system. The exclusive dual eyelet lacing system is offset to create a "pulley effect", keeping the brace tighter longer. The top strap covers the laces and locks the figure eight straps in position.

The full elastic back is comfortable against the Achilles tendon and helps reduce irritation and potential for blistering. The breathable tongue helps keep the foot cool and comfortable. The Inner Lok 8 is backed by an industry leading 1 year warranty and constructed from a durable ballistic nylon which is comfortable thin, and lightweight.

### INDICATIONS FOR USE

Use the Inner Lok 8 after injury or to protect your ankle from future injury. This ankle brace helps prevent and relieve aches, pains, sprains, and other ankle conditions.

### SPECIFICATIONS
