Use the tubes (included) to inflate air bladders to users desired compression level.

Available From:

### HELP RELIEVE PAIN & REDUCE SWELLING

The Swede-O® Air Lite Ankle provides a great combination of medial and lateral ankle stabilization with compression to help relieve pain and reduce swelling following acute ankle injuries.

Fill bladders with air for proper compression to help stabilize an injured ankle. The ultralight, contoured rigid shell fits comfortably over the right or left ankle. Thin heel pad easily fits in most shoes.

Wear splint during daily activities while recovering from an injury. Bilateral design fits right or left ankle. One size fits most.
