- Comfortable and adjustable - Fits left or right hand
- Easy to apply and adjust
- Durable elastic material comfortably supports the wrist
- For sprains, strains, and post-cast support

Available From:

FUNCTIONAL & COMFORTABLE

The Swede-O® Adjustable Wrist Brace provides comfortable support and compression to help relieve pain and discomfort for weak, aching, or injured wrists. Use for mild to moderate wrist sprains, or post-cast support.

CUSTOMIZABLE FIT

A removable palmar stay supports the wrist in a cock-up position. By design, this aluminum support is malleable, allowing for a custom fit based on positioning need. The low profile, bilateral form contours to the natural shape of the left or right wrist and hand for increased comfort and support.

This wrist brace features multiple closures which provide a customized fit, allow for variations due to swelling, and offer easy application and adjustment; bilateral design fits left or right hand.
