- One size fits most; 5.5” - 9.5” wrist diameter

Available From:

COMFORTABLE & ADJUSTABLE

The Swede-O® PowerWrap® Wrist Brace provides comfortable support and adjustable compression to help relieve pain and discomfort for weak, aching, or injured wrists. This support reduces wrist motions which may contribute to carpal tunnel syndrome.

The removable, contoured aluminum palmar stay places the wrist in a cock-up position, allowing the wrist to rest by minimizing motions that may aggravate nerves, tendons, or ligaments. The PowerWrap tabs provide independent adjustments to the wrist and hand regions for customized support and can easily be fine-tuned when more or less support is needed. The low profile form contours to the natural shape of the wrist and hand for increased comfort and support.

The durable outer shell combined with a soft fabric lining provides a comfortable fit. This support is ideal for carpal tunnel syndrome, RSI (Repetitive Stress Injuries), acute or chronic wrist pain or irritation, postoperative pain, post-traumatic pain, tendonitis, arthritis, and osteoarthritis.

Specify left or right hand when ordering.
