

WOLFF INDUSTRIES, INC.

SMS1015 Double Blade Tender Knife

- **Increases yield** versus traditional X cut, research shows 1-2 points when correctly.
- **Short learning curve** on acceptable tender removal versus X cut from months to hours.
- **One size fits all birds**, factory preset blades work on small to large birds.
- **Hinged handle** allows for quick disassembly for traditional sharpening and cleaning.
- **Quick singular cutting pass** reduces labor and raises productivity levels.
- **Superior ergonomic non-slip handle** in high visibility blue.
- **Contoured pre-set blades** easily track the keel with minimum pressure from the operator.
- **Contact molded design** reduces risks of pathogen contamination.
- **Made in the USA**

used

Patent Pending
