

*Waveband specialized accessories*  
**Designed for military personnel**

***“When  
Reliability  
Counts  
Choose  
Waveband”***

Two way radio communications are an integral tool for the warfighter. Being able to communicate with reliability can save soldiers by allowing them to request medical assistance, and initiating request mission requests. The dependability of your radio accessories are just as important. This is why all of our accessory products are made of the highest quality components in ISO certified facilities. Our two way radio accessory products have been tested and approved for use in military facilities throughout the world.

# Batteries

## MILITARY FIT

Our batteries have been in use for nearly twenty years, and are relied upon by soldiers nationwide. Our two way batteries are manufactured to meet the demanding environments soldiers encounter on a daily basis. This is because we refuse to use inferior product components throughout the manufacturing process.

# Military Noise Canceling Headsets

## MILITARY FIT

Military personnel are exposed to high frequencies of noise every day that can do a great deal of damage to their ears overtime. From the sound of a loud truck engine or their immediate surroundings, our noise canceling headphones are designed to guard your ears. Our headsets also offers a behind-the-head dual speaker with boom microphone.

## KEY FEATURES

- ✓ Noise Reduction Rating of 23DB
- ✓ Removable and replaceable radio interface cable
- ✓ Goose Neck Boom, Dynamic Microphone reduces transmitted background noise and is easily adjustable
- ✓ Recommended for Fire & EMS, racing intercom, avionics and industrial use.
