

# HI STORE MANAGER,

I recently discovered Waxhead sunscreen. It's completely safe, effective and eco-friendly. And I love it!

I buy Waxhead online, but I'd prefer to buy it locally from you.

You may sell other sunscreens, but if they don't use non-nano zinc oxide as their sole active ingredient or if they contain petrochemicals or other toxic ingredients, they don't meet the demands of informed sunscreen buyers.

I urge you to carry Waxhead, which will fully satisfy the needs of customers like me.

Just call Shannon and he'll be glad to send you more information.

Thanks for considering my request, and here's to thriving in the sun.

## Your Happy Customers
