

Salvation Made Simple

Ryan N. Franklin

Salvation Made Simple

Salvation Made Simple is a to-the-point Bible Study designed to do what it says—make salvation simple. This basic approach to the Word of God was born of a burden in the heart of Ryan Franklin to help reach people with the simple salvation message of Jesus Christ. Its no nonsense approach to New Testament teachings makes it an ideal tool for sharing the Gospel.

foundation

II Peter 1:20, 21

The Bible is God-inspired.

Many scriptures illustrate the validity of the Bible. Here are a few:

Leviticus 17:11

“For the life of the flesh is in the blood....” Had only the doctors of the past known this, many lives, perhaps even that of George Washington, would have been spared a death caused by the practice of “bleeding.”

Isaiah 40:22

“It is he that sitteth upon the circle of the earth...” During the 1400’s, people of learning believed that the world was flat. It was some 2,100 years after the Bible was written that mankind learned the earth was round.

foundation

Jeremiah 33:22

“...the host of heaven cannot be numbered...”
Until the 1600's, learned men believed there were a certain number of stars in the sky which could be counted.

II Timothy 3:16

All scripture is God inspired. All scripture is profitable for doctrine.

II Timothy 2:15

We must study and search the scriptures. We must rightly divide the word.

John 12:48

This Bible is what will judge us. This is why we must not put our trust in theories or religion but what the Word of God says.

Matthew 7:13-14

This is a narrow way and only few will find it.

**To find this narrow way,
we must do the following:**

1. Believe the Bible is 100% God-inspired.
2. Study it and do not accept man's word.
3. Rightly divide the Word.
 - Matthew, Mark, Luke, and John = Life of Christ
 - Acts = Actions of the apostles after Christ ascended
 - Romans through Jude = Letters to churches and writings of apostles

Now that we understand the layout of the Bible, it should all come together perfectly. When it comes to salvation, we shouldn't have to pick and choose scriptures and create a theory to make it fit. We will simply study the teachings of Christ and then the actions of the apostles.
