NOTES:

1. Choose your size based on the measurements in the [Size Chart on page 3](#). The Finished Garment Measurements are for referencing ease in the garment only.
2. The HEM measurement is the bodice circumference at the finished hem of the garment, which is designed to fall approximately 4" (10 cm) below the natural waist. This measurement does not include elastic, which will reduce the unstretched ease at the bodice hem by approximately 8" (20 cm) if sewing Version A.
3. BODICE LENGTH is measured from the center of the shoulder seam straight down to the finished hem on the Front Bodice.
4. SLEEVE LENGTH is measured from the seam at the top of the sleeve cap/shoulder straight down to the finished hem of the sleeve.
