NOTES:

1. Hem/waist lengths are measured from center back neckline.

2. This pattern is drafted from a base size 12 with an average height of 5'9". The bust, waist, and hip lines indicated on the pattern are approximate and your vertical measurements may vary slightly from these baselines. Some adjustment may be required (such as moving the bust darts up or down, or adjusting the overall length of the garment) for the best fit on your body. Sewing a quick muslin to test the fit is recommended.
