NOTES:

1. If using one of the Full Bust Adjustment (FBA) pattern pieces for the C or D Cup, **choose your size based on your High Bust measurement**, then choose a cup size based on your Full Bust measurement. This should give you approximately 1½"(3.8 cm) to 2"(5 cm) of ease in the full bust.
2. Additional pattern pieces are provided for Full Bust Adjustments (FBA) for C or D cups. Please refer to [page 4](#) for additional information on choosing your cup size for the FBA pattern pieces.
3. If pattern matching (with stripes, plaids, etc.), additional yardage may be required.
