### NOTES:

1. This pattern is drafted from a base size US 12 with an average height of 5'9" (175 cm). [See Construction Notes on pg 7 for lengthening/shortening recommendations.](#)
2. Choose your size based on your HIGH BUST measurement first, then find the FULL BUST cup size that is closest to your FULL BUST measurement. **If your FULL BUST measurement is greater than the D Cup for your size, it is recommended to do a full bust adjustment for the best fit in the bodice.** [Tutorials for bust adjustments can be found on the Pattern Scout Blog.](#)
3. Choose elastic length based on your WAIST measurement.
4. If using a directional print or pattern matching (with stripes, plaids, etc.), additional yardage may be required.
5. If using a 45" wide fabric, the Elastic Casing will need to be cut in two pieces and pieced together at the center back for sizes 26, 28, and 30.
