# RUSH HiPro®

## VIRTUALLY INDESTRUCTIBLE

RUSH HiPro® provides the most realistic and responsive foot and ankle motion available. Made from an advanced engineered glass composite, which is three times more flexible than most conventional prosthetic feet. The energy return of this foot enables amputees to easily traverse the most aggressive terrain while experiencing zero dead spots.

**“THE IMPACT ABSORPTION IS UNREAL,  
IT WITHSTANDS EVERYTHING I CAN  
THROW AT IT.”**

– Jay Nero, BK, RUSH HiPro®
