Easy Math Octo-Team Worksheet

One way to Grow Math Self-Confidence quickly is with the Octo-Rep process, where you start with just the age equations around each quote on the team. You'll do those age calculations 8 times for 8 team members. DON'T COPY the answers to the next page... Earn the Confidence!

Do the Easy 2-digit Age equations (which are actually 4 digit math but since we're focused on 2 digit ages, you'll get 4 digit confidence) and notice the confidence that comes with their improved speed calculating those last few team member pages. Use a timer to compare team age calculation. Then go back and do the rest of the math equations below each team member quote.

Use the Team age worksheet below to practice adding the same ages in different order for additional math confidence building success.

Reading Faster WPM Practice instructions – Printed use

- For Each Team of 8 Quotes, Set a 10-second timer on cellphone or metronome (6 beats/min). Just read the quotes for now. Save the Author and Dates for later.
- Reading Speed is based on How Many Words Per Minute (WPM) You Read with Comprehension.

- Between each Quote is the WPM#. Since You should Stop Reading when the 10-sec timer goes off, we just multiply the # of words read starting with Quote#1 up till the end of last Quote you fully read for your personal Words Per Minute count.
 - This will change for each quote and team, due to quote length.
 - Repetition is How We All Learn, So Practice Makes You Better!

Why I started “Free Easy Math Wisdom Workbooks”

I started GuideALife.com because my wife and I live in Florida but most of our Grandkids live in California. Since I only get to see my "West Coast Treasures" a few weeks in a good year, I wanted to make sure that my 5 grandchildren on both East and West coasts of America (not 5 on each) grow up with more exposure to, and hopefully inspiration from some of the Proven Wisdom that have Encouraged, Educated and Entertained Generations for Centuries.

I started sending my grandkids custom calendars I designed called “Holidaze de Jour” that included a couple of very old quotes to Inspire and Motivate themselves and others.

I was sending them the Calendars every month for years. But the kids were growing fast, and I wanted to share those Wisely Inspired Quotes with them on a more repetitive basis than once a month, so I designed tee shirts with those quotes called: PrettyWittyKids, YouthfulTruths and SocialEqualitees.

Then... Covid hit and closed their schools for months, so I used those 52 teams of 8 Quotees for Easy Math equations to help them keep their math skills sharp and still Encourage, Educate or Entertain them with whichever of the quotes that touches their heart and helps them grow into successful happy adults.

Good Luck, I Know You Can Do it!
